HIDDEN MACHINE  
GUN SHOOTS TWO  
IN AUTO; 1 DEAD

Gambling War Seen  
in S. Side Attack.

(Pictures on back page.)

One man was killed and another critically wounded last night by machine gun fire poured on them from a darkened basement window at 545 street and Union avenue.

The slain man was Ralph J. Murphy 35 years old, 423 East 62d street.

The wounded, who is believed to have been the real target of the killers, is James [Bube] Quinlan, 27 years old, 200 South Morgan street, ex-labor leader and more recently "heavy man" or guard for a gambling house.

Murphy and Quinlan were seated in the latter's car. It had been parked a 545 street, near the side entrance of Robert Nugent's saloon, for forty years a resort for the thirsty back of the yards. Without warning there came the staccato bark of the machine gun and forty bullets ripped into the car.

Bulletins Rain Into Car.

Two crashed into Murphy's head, others into his body. Quinlan was struck in the back and chest and the two men pellets smashed his jaw. Both men slumped down to the floor. A few seconds later Nugent ran from his saloon, which is at 5300 South Union avenue, saw what had happened and summoned the police.

A search of the basement across the street disclosed nearly fifty shells on the floor. The gun, however, was gone. Apparently the killers had fled out the opposite side of the building, carrying the weapon with them, and had reached an automobile in an alley. In it they could have been far from the scene of the shooting within a few minutes—safe, because no one had seen them.

Next began a search for the motive. On this point Nugent could throw no light. Murphy, he said, was his bartender and a close friend of Quinlan, who had come by to drive Murphy home. He professed to know little of Quinlan, although he said the wounded man had often been in his place.

Scout O'Donnell Rumors.

The police first suggested that the two men might have been allies of Edward [Spikes] O'Donnell, who announced a week ago that he was going back into the beer business and drive the powerful Salta-McErlane syndicate out of their rich territories. Further investigation, it was said, proved that O'Donnell was not in any way involved, but that the attempt of members of the Salta mob to take over a gambling house in which Quinlan worked was the probable cause of the shooting.

Quinlan was bodyguard for Tommy Tutt, who operates Dan O'Leary's old gambling resort at 41st and Halsted streets. Some months ago, when the Salta-McErlane crowd demanded a share in the business, Quinlan is said to have imported a crew of gunmen, the "Shelton" mob" from St. Louis, and sent a taunting message. Salts could have the place if he'd come to Chicago from his hiding place in Wisconsin, and take it was the tenor of the note.

The wounded man's grim history disclosed three other possible reasons for the attempt on his life. Underworld rumor, at least, made him a wanted man.

Named in Three Killings.

First on the list was Philip Corr, who was identified with the Klon O'Donnell beer gang. His body was found in Clore, but it was said he was shot in a saloon, possibly in Clore, by Quinlan. Next was John Luby, 7928 South Carpenter, who was shot and fatally wounded in another saloon. Quinlan was once connected with William Corr, of the flat janitors' union, credited with the shooting, ex-business agent of the plumbers' union, provoked the attack by Quinlan he wasn't as tough as he was reputed to be.

The third killing was that of Hilary Constant, whose body was found in November, 1926, in an unoccupied room at 226 West 60th street. He was a member of the Ragin' Cossacks club and Quinlan was accused of having shot him as he slept in a chair in the clubrooms.

Quinlan, in the hospital, preserved the gangsters' traditional silence on the shootings in which they involved. He was asked who shot

him.

## Starts Atlantic Hop in Tiny Plane

### BRITISH NOVICE USES SHIP WITH 26 FOOT WINGS

Has No Radio; 100 Gallons of Gas.

BULLETIN.

BELFAST, Oct. 18.—(AP)—Generally unfavorable flying weather prevailed along the Irish coast this morning as all points were on the alert for H. C. MacDonald attempting to fly to the Atlantic from New Foundland. At 8:50 a. m. (2:50 a. m. Chicago time), no sign of the lone flier's tiny moth plane had been reported.

Mellon scoffs at Smith's charges of G. O. P. extravagance.

FLIGHTS.

TOKIO, Oct. 18.—(AP)—Baron Ehrenfried Gunther von Huenefeld, flying to Tokio from Germany, made a forced landing in a southern suburb today after a nonstop flight from Shanghai. The baron, his co-pilot and mechanic were not hurt, although the machine was badly damaged. The airmen lost their way in a rainstorm.

BY JOHN BROWNE.

[Chicago Tribune Press Service.]

(Picture on back page.)

HARBOR GRACE, N. P., Oct. 17.—Flight Commander H. O. MacDonald, retired, a young Briton who hopped off from here at 1:21 p. m. local time [10:51 a. m. Chicago time] believed to have somewhere out over the Atlantic tonight on an attempted nonstop flight to England. Although he said the flight was to be only a short test flight, the fuel tanks were full and he carried complete equipment, and when he had not returned or been heard from at 8 o'clock tonight it was generally believed that he was well on his way to England. Weather conditions here were favorable, with a light northwest wind. Capt. R. G. R. reports said the wind was from the west and the atmosphere fine and clear.

TRYING TO DUPLICATE LINDY'S FEAT.

ST. JOHN'S, N. F., Oct. 17.—(AP)—A daring young Briton, Flight Commander H. O. MacDonald, retired, took off from Harbor Grace early this afternoon, ostensibly to attempt what only Col. Charles A. Lindbergh has accomplished—a nonstop solo flight across the Atlantic.

biters bore. They have too many things to tell him. He calls them "the standing committee on suggestion."

One day he called them "the chronic committee."

Committee Stays in Background.

Last night's standing committee, however, had tact and showed pity. Looking out on the swarm of unofficial greeters, they decided that they could give their candidate no suggestions that would be of immediate help, and so he was left to his fun and his comradeship with the helpers who rode in on trucks. The tacit committee included:

Harold F. McCormick Peter Auguste  
Herrick P. Jung William Sullivan Francis X. Bush  
I. M. Brandfield Joseph Gill  
Frank J. Wilson Harry Kohl  
John A. Cervena Charles Bender  
Richard's Polson Robert M. Switzer  
John O'Conor  
Thomas F. Keeley W. L. O'Connell  
W. B. Carlisle Louis Brodess  
John J. Sullivan Salvatore Romano  
Peter W. L. Meyer Joseph Dyer  
Thomas D. Garry Charles F. Brown  
Samuel P. Arnett Miss Julia M. Deal  
Jacob M. Arvey John Dowd  
John T. Quinn William F. O'Connell  
John M. Whalen Russell J. Sullivan  
William D. Meyer John J. Sullivan  
Happy Trip Through State.

The ride from the northern line of St. Clair county where East St. Louis was really a beautiful and exhilarating experience for the governor. The weather was sunny, the crowds at Alton, Springfield, Bloomington and Joliet were large and enthusiastic, and, between greetings, work on Smith's Chicago speech, of which he will not give us the topic, went well.

Talks to 10,000 at Springfield.

To the ten thousand people who greeted him with bands and banners during the ten minute stop at Springfield he said:

"I hope you will all listen in on the radio on Friday night, because I have reserved for Chicago a subject worthy of the attention of the great state of Illinois.

I am deeply touched by the warmth of the receptions and the size of the crowds that have welcomed me to Illinois, but I must tell you that it has been a pleasure to all of us that never had a political candidate greeted by crowds so large as those that welcomed me there last week. In St. Louis, day before yesterday, I heard the same cheering words. Again and again my wife and my daughter and I thank you for your affection and your kindness to your neighbors from the east."

Local Speaker on Wheels.

An ingenious arrangement at Springfield caused the governor to break his rule against open air speaking. A loud speaker mounted on wheels was run alongside his train as it drew into the station and it was halted close to the rear platform of his car when the train came to a stop. The cleverness of the scheme amazed him and he could not refuse the robust invitation to "talk in" to the crowd.

Chicago's Car Attached.

At Springfield a private car occupied by this delegation of Chicagoans was attached to the Al Smith special.

William H. Rehm, Judge Henry Horner, Edward N. Hurley, Alfred S. Austrian, Kelly George N. Peck, Edward E. Brown, George F. Kitz, John H. Miller, Charles J. Vapich, Marvin A. Taylor, A. A. Sprague, Mrs. Kellogg Fairbank, former national committeewoman from Illinois, and Mrs. Elizabeth A. Conkey, the present national committeewoman.

The most significant arrival of all was United States Senator Robert Wadlow of New York. He comes to perform strategy in getting out the Illinois German vote for Al.

At Carlinville there was a huge crowd, but no stop.

The governor was worried yesterday by two things. The first is his spectacles; the only pair he has with him, and the second is apprehension lest his stand on the tariff be misunderstood.

The spectacles are so snuggly fitted that the dew of honest toil gathers on them while he is speaking, and so he is half blinded in the course of a speech when he tries to call out statistics to the audience. "I got to can this pair of glasses," he said. "They look the part, but they don't work right when I get sweating up."

Defined Stand on Tariff.

In reply to what he considers attempts to misinterpret his recent tariff utterances he said:

"Hoover seems to think, or he must have thought that I was going to do what he did, to be the fixer of schedules ought to be done from the congress of the United States and lodged with the tariff commission; but no such thing was said. No such position was taken by me. I distinctly said that the tariff commission was to provide the information and the basis for scientific tariff making."

Senator Moses said, "If Gov. Smith's program can possibly be adopted, it would mean the turning

## Al Smith's Two Daughters Are Lost in Surging Crowd

Mrs. Alfred E. Smith rode from the Union station to the Congress hotel in a large automobile with her husband last night, but three other female members of the governor's party didn't fare so well. They rode in a taxicab, because the crowd at the station had separated them from the nominee and they couldn't persuade Chicago's hard boiled police to believe the governor received in all the towns along the route.

The unfortunate were Mrs. Francis J. Quilligan and Mrs. John A. Warner, daughters of the Alfred E. Smiths, and Mrs. Charles Dana Gibson, wife of the illustrator.

It's Taxi or Walk.

The crowd surged up around Gov. Smith, the trio were thrust so far to one side that none of the welcoming committees could get to them. Not being exactly helpless, they strove to get back to the front, but two advised them not to get roughed.

Mrs. Warner suggested that as the daughters of the candidate they ought to be allowed to rejoin him.

"That's a lot of boloney," was the police rejoinder, and there was nothing else for them to do but hunt a taxicab. One more male name unreported, who was with them in the crush, also rode in the cab.

Mrs. Smith Is Happy.

Mrs. Smith, who wore a brown suit, a cinched waist and a fox fur, carried a large bouquet of roses and smiled happily during the excitement. She looked it her long journey had tired her.

"O, I couldn't be tired," she said, "when I see the wonderful affection with which my husband is greeted

everywhere. I am happy and confident."

All the women members of the party retired soon after reaching the hotel.

Mrs. Kellogg Fairbank, former national committeewoman for Illinois, and Mrs. Elizabeth M. Conkey, present committeewoman, boarded the special at Springfield. Both spoke enthusiastically of the reception the governor received in all the towns along the route.

Mrs. Fairbank to Entertain.

Today Mrs. Fairbank will entertain Mrs. Smith and a group of Chicago women at luncheon at her home, 1244 North State street. Those invited are:

Former Gov. Nellie Taylor Ross of Wyoming; Mrs. Stanley Field, president of the Lake Forest Smith for President club; Mrs. Albert A. Sprague, Mrs. Potter Palmer, Mrs. Charles H. Hammill; Mrs. Mitchell D. Pollansbee, Mrs. James G. Hammill; Mrs. Carl Meyer, Mrs. William Field, Mrs. Walter Johnson, Mrs. William L. Brown, Mrs. J. M. Patterson, Mrs. George Bass, Mrs. William A. Nitze, Mrs. Arthur Bissell, Mrs. Graham Aldis, Mrs. Conkey, Mrs. Arthur Young, and Miss Caroline Kirkland.

No other set function is scheduled for today, but tomorrow afternoon, in the lounge of the Stevens hotel, there will be a reception for all the women of Chicago who desire to meet Mrs. Smith. In the receiving line, beside the Mrs. Hamilton Lewis, Mrs. Wilson, Mrs. Walter Johnson, Mrs. Arthur

and Mrs. George Bass, Mrs. Arthur

and Mrs. William A. Nitze, Mrs. Arthur

Bissell, Mrs. Graham Aldis, Mrs. Conkey, Mrs. Arthur Young, and Miss

Caroline Kirkland.

Going at some length into figures and statistics, he charged that present depression is due to a national policy of deflation and quotation.

President Coolidge is the greatest novelist that ever sat in the White

House. He writes fiction. He writes

scandalous and fictitious prosperity and fictitious economy."

Miss Adams for Hoover.

Two Chicago women who formerly

backed the La Follette cause have

taken widely diverging paths this

year, according to announcements of the day. Miss Jane Addams of Hull House and Mrs. Mary E. Plumbe,

vice chairman of the "progressive"

campaign four years ago, opened

headquarters for her old followers at the Hotel Sherman in connection with the Democratic headquarters.

Miss Addams' statement included

one lengthy reference that was

noted as slightly unfortunate from

the standpoints of political expediency.

He compared Mr. Hoover to Sidney

Hillman, head of the Amalgamated

Clothing Workers, which union leaders

consider so radical that it is not

admitted to the American Federation of Labor.

"Under seven years of Republican

prosperity there have been 100,000 business failures in this country—35,000 more than under the eight

years of Democratic adversity—more

than 20,000 business failures last year

—sixty business failures a day last

year—six failures an hour, counting

ten hours a day—one failure every

ten minutes. Does Mr. Hoover know

how to stop business failures? If he

should have told Harding and

Coolidge how."

Second, specific changes must be

made in specific schedules only after

thorough investigation and fact find-

ing by a body properly equipped to

get the facts."

Starred by Oil Disclosures.

Nobody on the train was more star-

ted by yesterday's new disclosures in the oil oil scandals than was Al

Smith.

The governor campaign strategist though when this remark was made in his presence:

"Even with Denby's fate to warn him, work seems to have failed for the same kind of proposition Denby fell for."

City Tour to Be Gala Affair.

The gala affair arranged for the

nominee's visit in Chicago is a ride

tomorrow through the parks and to vari-

ous points of interest. Thousands

of partisans carrying little American

flags, as did the thousands meeting

him last night, will gather along the

route of Al's fresh air expedition.

But he remained shrewd and cau-

tious, replying to a fusillade of ques-

tions only with the words, "I must

study this. It is too important to be

disposed of in an offhand interview."

More significant than his words was his action. He promptly dismissed the press conference over which he was presiding and retired to his private car, St. Nicholas, there to plunge into fresh examination of the mass of documents on the oil

oil scandals.

Elmer Schwieker, 24 years old, 852 North

Lake Avenue, an assistant buyer for

the Standard Oil Co., was found dead

in his home yesterday. A gas light in the

room was extinguished, but the jet had not

been closed.

## COUNCIL PLACES \$26,491,000 IN BONDS ON BALLOT

Approves Program for 12  
Issues Over Protest.

Chicago's voters on Nov. 6 for the second time will decide the fate of twelve bond issue proposals authorizing the city administration to spend a total of \$26,491,000. Although reduced in size, the program is identical with that beaten 2 to 1 at the primary last April.

The city council, acting at the last minute, yesterday rejected through ordinances putting the issues on a "little ballot" despite warnings by civic groups that public ire over high taxes and governmental waste will sink them again. As fast as the aldermen voted Mayor Thompson signed the ordinances, but a special edition of the official city newspaper was required to publish them before midnight, the legal deadline. Opposition arguments were cut short by a crise of "delay."

Ten for Public Projects.

Ten of the issues, totaling \$24,541,000 for unfinished street projects advocated by Michael J. Faherty, head of the board of local improvements. The other two, \$1,500,000 for street lights and \$450,000 for work on the Cicero avenue airport, are departmental issues.

The proposals, as the voters will mark them on the ballot, are as follows:

(Unfinished street projects).	\$1,360,000
La Salle street.	6,300,000
Western avenue.	5,700,000
Wacker drive.	3,200,000
West 55th street.	785,000
West 56th street.	600,000
West side system (Clinton Park, Big Blaines, Jefferson, and Taylor streets).	385,000
Pearson and Ridge avenues.	350,000
Total.	\$24,541,000
(Departmental projects).	
Airport.	450,000
Street lights.	1,500,000
Total.	\$1,500,000
Grand total.	\$26,491,000

Vote on Lights Split.

Proponents of the bond issue program in the council had no difficulty obtaining from 30 to 35 votes or more than the necessary two-thirds majority for the first eleven issues which comprised the program recommended by the finance committee. Several balked, however, at loading on the \$1,500,000 street light issue and the vote was split up after a bitter debate.

A second battle ensued when Ald. John Toman [23d] insisted on the inclusion of \$5,000,000 for Ogden avenue, the only one of the April street projects omitted from the Faherty list. It lacked two votes of the required two-thirds and Toman announced he would stomp the west side against the whole program.

The roll call on the Faherty street projects was as follows:

For Placing on Ballot.	
1. Coughlin 10. Morris 30. Clark	
2. Anderson 18. Ryerson 31. Adam's wife	
3. Jacobs 20. McKinley 32. Clegg	
4. Crosson 25. Fitzgerald 33. Frank	
5. Grossman 21. D.A. Horas 34. Kalin	
6. Kilday 22. Cepak 35. Self	
7. Koenig 23. Murphy 36. Neuber	
8. Koenig 25. J. W. Wiles 37. Chomawick	
9. Wilson 26. Simon 45. Hause	
10. Hartnett 27. V. A. Nor. 46. Feigenbaum	
11. O'Toole 28. Neuber 47. Nelson	
12. Byrnes 29. Neuber 48. Neuber	
13. Byrnes 30. Neuber 49. Neuber	
14. Neuber 31. T. J. Bowler 50. Neuber	
15. Mills 32. Neuber 51. Neuber	
16. Chapman 33. Neuber 52. Neuber	

Mills, Neuber, and T. J. Bowler voted for the projects.

At the conclusion of the roll calls Ald. James G. Coyle [11th], who had opposed all the street projects, announced that he had voted for them because he had known the street lights were to be included, while Ald. Toman, whose votes were split, said he would have opposed all had he known Ogden avenue was to be left out.

**Guernsey Leads Fight.**

Ald. Guy Guernsey [6th], who has opposed high administration expenditures, led the fight against the bond issue on the grounds that increasing the public debt would further offset the tax burden on the small home owner.

He attacked Mr. Faherty's attitude of "all or none" in insisting on "everything at one gulp." Admitting that pending property judgments amounting to \$13,000,000 should be paid, he urged the council to stay within that limit in the construction of the Roman Catholic religion.

The condemned youth has embraced the Roman Catholic religion.

**Wife Slayer Dies Tomorrow.**

Lincoln, Neb. Oct. 17.—(AP)—Frank Sharp, 52, doomed to die in the electric chair for the slaying of his wife in March, 1926, was placed in the death cell at the state penitentiary today to await his execution early Friday.

He made no legal and expert services.

## ECKENER WANTS \$14,000,000 FOR A ZEPPELIN LINE

Also Announces Plans for Midwest Tour.

BY TOM PETTEY.

New York, Oct. 17.—(Special)—An ambitious program for the formation of a \$14,000,000 trans-Atlantic Zeppelin mail and passenger service and the tentative itinerary for a two day tour of the midwest by the Graf Zeppelin were announced today by Dr. Hugo Eckener.

The inland flight of the huge air liner will carry her and as many passengers as can be crowded into the cabins over Chicago, Cleveland, Akron, Cincinnati, Detroit and a score of smaller cities, her skipper said. The Zeppelin probably will start her midwest tour Tuesday morning although there is a possibility she will sail Monday.

Dr. Eckener said the repairs to the ship should be completed by Saturday, but his second in command, Capt. E. A. Lehmann, after talking to the public early tonight, was of the opinion it would take longer. Capt. Lehmann set Tuesday for the midwest flight and Friday for the start on the return trip to Germany.

Will Talk with Financiers.

Details of the \$14,000,000 air line project will be discussed tomorrow at Lakehurst by Dr. Eckener and several financiers whose names have not been disclosed.

Regarding the trans-Atlantic airship company, Dr. Eckener said he had invited American capitalists to invest the \$14,000,000 to him and his German conferees. The sum would be used to build four new Zeppelins, each bigger than the Graf Zeppelin, and to use them on regular all year round voyages between Germany and an American airport near Washington or Baltimore. If the money can be obtained Dr. Eckener said \$4,000,000 should be spent on the four new gas bags and \$6,000,000 would be paid out for new hangars in Germany and the United States. Two of the dirigibles would be built in Germany and two in America.

"Four years ago when I brought the 'Los Angeles to America,' the air commander said, 'I discussed this project with a wealthy American who would be able to finance the entire project alone. It without his approval because he was not an expert on lighter-than-air navigation.'

He said he had planned further demonstrations of the practicability of my plans. This time I hope to convince him or, failing that, some syndicate of financiers."

Mail Line More Profitable.

The airships would carry mail, freight and probably passengers, although Dr. Eckener is of the opinion mail ships would be more profitable than passenger ships. The line, he said, could be put in service within four years.

On the midwest flight, Dr. Eckener said, the Zeppelin would fly only by daylight, so that as many persons as possible might see the great airship. "I expect to moor the 'Zep' to the mast at Detroit if that is feasible," said the German airman, "but if the wind is too high we will pass the night cruising over Lake Erie."

Will Carry Passengers West.

Henry Ford and his son, Edsel, will receive invitations to fly in the Zeppelin if the dirigible can be landed in Detroit.

"I would like very much to take these gentlemen for a trip," said Eckener, "but I fear they will be too busy."

Passengers will be carried on the tour but none has been booked yet as Eckener and the Zeppelin officials are figuring on how much to charge.

The second day's round of activities in New York for the German visitors included an advertising club luncheon and a reception at the German club. Tomorrow, Dr. Eckener will be in Lakehurst and Friday he will breakfast with President Coolidge in Washington.

# Carlin Comforts

DELIGHTFUL ACCESSORIES  
FOR THE BOUDOIR

Come to the Carlin Shop and see all our puffs and pillows, spreads and blankets—so radiant, so exclusive, so practical. Whatever your requirements, whatever your whims—behold here the most cherished coverings and decorations for boudoir, bedroom and closet . . . for gifts . . . for the trousseau. And all are so reasonably priced.

AT ERIE STREET

## Chicago to See Zepp Next Week; Crew Here Monday

(Picture on back page.) The airship Graf Zeppelin will cruise over Chicago and other midwestern cities next Wednesday or Thursday, according to a message received last night by George F. Getz, honorary chairman of the citizens' reception committee, from Harry Vissering, Dr. Hugo Eckener's personal representative in New York.

Preceding the visit of the airship, Dr. Eckener, commander of the Zeppelin, and part of the ship's crew and passengers on the flight from Germany, will arrive here by train on Monday morning. Returning to Lakehurst Monday evening, the commander and his staff are expected to take off immediately on the middle western cruise. The possibility of making St. Louis the starting point for a nonstop return flight to Germany is being considered by Dr. Eckener.

The inland flight of the huge air liner will carry her and as many passengers as can be crowded into the cabins over Chicago, Cleveland, Akron, Cincinnati, Detroit and a score of smaller cities, her skipper said. The Zeppelin probably will start her midwest tour Tuesday morning although there is a possibility she will sail Monday.

Dr. Eckener said the repairs to the ship should be completed by Saturday, but his second in command, Capt. E. A. Lehmann, after talking to the public early tonight, was of the opinion it would take longer. Capt. Lehmann set Tuesday for the midwest flight and Friday for the start on the return trip to Germany.

Will Talk with Financiers.

Details of the \$14,000,000 air line project will be discussed tomorrow at Lakehurst by Dr. Eckener and several financiers whose names have not been disclosed.

Regarding the trans-Atlantic airship company, Dr. Eckener said he had invited American capitalists to invest the \$14,000,000 to him and his German conferees. "Four years ago when I brought the 'Los Angeles to America,' the air commander said, 'I discussed this project with a wealthy American who would be able to finance the entire project alone. It without his approval because he was not an expert on lighter-than-air navigation.'

He said he had planned further demonstrations of the practicability of my plans. This time I hope to convince him or, failing that, some syndicate of financiers."

## DRY AGENTS FIVE DAYS TOO LATE FOR JOE'S PARTY

Chicago police, who have sought Joe Saltis in vain for 150 days, and United

States Marshal H. C. W. Laubenthaler, who has been sought in vain for 150 days, were given a tip yesterday as to where they might have bagged the beer baron had they been in the right place at the right time.

Gladys Werleka is proprietor of a night club known as Peep Inn, out at Willow Springs. Early yesterday a flock of prohibition agents invaded Gladys' domain and took her into custody for violation of the Volstead act.

"You guys were upon her visitors," said Gladys. "You would have called around here last Friday night."

"Why?" demanded a curious agent.

"Well, Mr. Joe Saltis was out here and flung the biggest party ever pulled in Chicago."

Chicago police want to lock Joe up in the Bridewell for 60 days and collect a \$50 fine for gun-toting. Mr. Laubenthaler has sought Joe since Federal Judge James H. Wilkerson ordered his arrest for bond forfeiture.

On the midwest flight, Dr. Eckener said, the Zeppelin would fly only by daylight, so that as many persons as possible might see the great airship.

"I expect to moor the 'Zep' to the mast at Detroit if that is feasible," said the German airman, "but if the wind is too high we will pass the night cruising over Lake Erie."

Will Carry Passengers West.

Henry Ford and his son, Edsel, will receive invitations to fly in the Zeppelin if the dirigible can be landed in Detroit.

"I would like very much to take these gentlemen for a trip," said Eckener, "but I fear they will be too busy."

Passengers will be carried on the tour but none has been booked yet as Eckener and the Zeppelin officials are figuring on how much to charge.

The second day's round of activities in New York for the German visitors included an advertising club luncheon and a reception at the German club. Tomorrow, Dr. Eckener will be in Lakehurst and Friday he will breakfast with President Coolidge in Washington.

NOVICE AIRMAN IN TINY PLANE OUT OVER OCEAN

land at Chicago because there is no mooring mast.

Massachusetts plans proceeded yesterday for the entertainment of the Germans here. Ernest J. Kretzinger, head of the citizens' committee, stated that a private luncheon will be held at noon for the visitors, followed by a parade and public demonstration in Soldiers' field stadium. Closing the day's program will be a public dinner at the Stevens hotel, under auspices of the Association of Commerce.

City Seeks Mooring Mast.

Lack of facilities for harboring dirigibles here caused a resolution to be introduced by Alderman Louis Anderson at yesterday's meeting of the city council, asking the Finance committee to make a survey for the purpose of locating a suitable hangar and mooring mast in order to facilitate landings in the future. Mayor Thompson stated that negotiations were under way with navy officials to secure the location of a \$500,000 government hangar and mooring mast in Chicago.

The following yesterday were named

as the honorary reception committee for the Zeppelin's crew: K. Eitel, William R. Dawes, Rufus C. Dawes, Stuyvesant Peabody, Harold Foreman, George W. Dixon, Samuel Insull, George Woodruff, George M. ## CANCER EXPERTS MARSHAL FORCES TO HALT DISEASE

### Six Authorities Stress Preventive Measures.

Cancer, which kills 125,000 Americans a year, was attacked in Chicago yesterday by six authorities counted among the most celebrated cancer experts in America.

They told the way to detect cancer early, and the way to cure or check it in its early stage. But above all, they laid stress on preventing cancer, and this message they made an appeal to the nation.

The six, who were led in public discussion by Dr. Charles Mayo, noted surgeon, head of the Rochester, Minn., clinic, were brought together by Dr. Herman N. Bundesen, who induced them to address the members of the American Public Health Association, of which Dr. Bundesen is president. The association is holding its 57th annual convention at the Hotel Ste. *vena*.

#### Take Definite Action.

It was the most significant cancer discussion held in some time, medical opinion at the meeting agreed. And aside from the knowledge of cancer acquired by those at the meeting, there was a definite step taken in the checking of the disease.

Dr. Mayo announced the appointment of a committee of prominent physicians, who are charged with the duty of forming a cancer clinic in Chicago. Those who will enter this clinic will be attracted all the problems, all the treatments, all the statistics, all the researches, all the results having to do with cancer.

There are now clinics in New York, in Boston, and a few other cities. Dr. Mayo said, and they have proved of inestimable value. There should be a committee of them with an end all coordinated, throughout the nation, the surgeon declared, and by this means he held out the eventual hope for the defeat of cancer.

#### Committee Is Named.

The committee was appointed by the six cancer authorities who made up yesterday's symposium. The following physicians were named to serve:

Dr. Bundesen, Dr. Frank Billings, Dr. L. L. MacArthur, Dr. Frank Morton, Dr. H. Gideon Wells, Dr. J. E. Tuite, Dr. Ludwig Heukelom, Surgeon General, U. S. Commission of the United States Public Health Service, and Dr. William A. Pussey.

The six cancer experts who addressed the meeting and appointed the committee are:

Dr. Mayo, Dr. Joseph C. Bloodgood, professor of surgery, Johns Hopkins University; Dr. William Carpenter McCarty, pathologist, Mayo clinic, Rochester, Minn.; Dr. Cummings, Dr. Maud Slye, associate professor of pathology, University of Chicago; Dr. George A. Soper, managing director, American Cancer Society for the Control of Cancer.

#### Hope Lies in Education.

They declared heredity a dominating factor in cancer. They held that a community informed of the nature and danger of cancer will have fewer hopeless cases of the disease, and consequently, fewer deaths. An enlightened people is now the greatest hope against cancer, it was stated.

Dr. Mayo said that the day, perhaps soon, perhaps many years hence, a positive cure for cancer may be discovered. Syphilis was held incurable not so many years ago; today it is successfully treated, he said. Formerly syphilis could not be diagnosed by simple test, but today there is the Wassermann. Perhaps a similar simple test may be provided to break through the long and great difficulty of detecting cancer in its early stages, the doctor declared.

Dr. Bundesen opened the session with a terse statement that the leaders of the nation on cancer problems

### Noted Surgeon Here for Congress

[TRIBUNE Photo.]

Dr. Herman Bundesen (left), president of the American Public Health Association, and Dr. Charles Mayo of Rochester, who came here to speak on cancer.

[TRIBUNE Photo.]

had come to share their knowledge, and he then introduced Dr. Mayo as the chairman of the meeting.

The surgeon opened his address by acknowledging what he termed a debt owed by the medical profession to the newspapers of America.

"Cancer publicity," he said, "has saved many lives. It has sent the victims of this disease to seek medical advice and attention before it became too late to save them."

#### Reveals Experiments.

Dr. Mayo then revealed hitherto unpublished facts concerning his study of cancers in plants. In his gardens at Rochester the surgeon has produced cancerous growths in strawberries, raspberries and grapes. Under the microscope they appear identical with the cancerous tissues taken from human beings. He has trained plants to resist the disease, and he has made others subject to it. Experimenting with these plants, he is searching for the cure.

"Heredity is tremendously influential in the causes of death," Dr. Mayo continued. "We find that 65 per cent of all humans die of diseases which killed their ancestors. Put conversely, we find that 35 per cent of all the descendants, who will die of—again with 65 per cent of success—

"By breeding plants and animals we can positively lower or raise resistance to disease. The growth of our civilization may some day lead to the scientific breeding of humans, and then we shall be able to either away the specter of cancer.

**Warns Against 'Cures.'**

"Beware of cancer 'cures' and carry that message to all you meet. I have read of not less than 3,000 'cures' for cancer, and I can count on the fingers of one hand those which are of any value whatever.

"Quacks and charlatans are preying upon thousands of unfortunate cancer sufferers. They charge them \$200—that is the regular quack fee

in the upper strata of the social structure.

**Tells of 19 Years of Study.**

Dr. Carpenter, who has spent many years in the study of thousands of cancerous growths, discussed the methods of arriving at an early diagnosis.

"From 15,000 to 150,000 people are going to die of cancer this year," he said. "Practically all of these will be in middle life. There is no known specific cause for cancer, but the suggestive symptoms are chronic irritation at the sites, and the hereditary predisposition.

"In the diagnosis, it is vitally important that the pathological study be made in the operating room, on the live tissues. Then only do we find the true signs of cancerous cells."

Gen. Cummings, discussing the relation of cancer to the social status of its victims, declared it to be more prevalent among the working classes

than in the upper strata of the social structure.

## EMMERSO AND GLENN LEAD IN DOWNSTATE POLL

Judge Thompson's Total Is Less than Al's.

BY OSCAR HEWITT.  
Louis L. Emmerson, Republican candidate, has a large lead downstate in the gubernatorial contest of Illinois, according to the first two dozen cities and villages polled by The Tribune. Judge Thompson, the Democratic candidate, is not shown to have made any substantial inroads on Republican strength. In fact, Judge Thompson, in these particular communities, is represented by the straws as running more than half a point behind Smith, the presidential candidate.

In these same localities Otis F. Glenn, Republican candidate for United States senator, is getting a larger percentage of votes than either Hoover or Emmerson. Consequently, Anton J. Cermak, Democratic senatorial aspirant, is running behind both Smith and Thompson on the Democratic ticket.

**Summaries Show Vote.**  
A summary of the votes for the candidates for governor and senator in the first two dozen communities polled is presented below. This table also shows how many persons who voted for Coolidge, for Davis, and for La Follette four years ago will this time vote for each entry for senator and governor. Still another classification is shown in the tables as "blanks," that is, persons who failed to indicate in the straw vote how they cast ballots in 1920, if they voted at all. The two tables follow:

FOR GOVERNOR.			
Thompson	Emmerson, son, Koop.	Total	1,979
Candidate	64	275	1
Davis	45	55	9
La Follette	679	388	4
Blanks	679	626	94
Total	1,846	940	14
Total, 5,096			

FOR U. S. SENATOR.			
Kirk	Glen, Cermak, parick. Total	Total	1,918
Candidate	704	153	1
Davis	43	246	2
La Follette	35	45	9
Blanks	395	284	15
Total	1,237	626	94
Total, 1,867			

The cities and villages in which these straws were collected are: Peoria, Mattoon, Rockford, Pekin, Canton, Kewanee, Galva, Galesburg, De Kalb, Mendota, Rochelle, Streator, Wenona, El Paso, Pontiac, Bloomington, Rushville, Mount Sterling, Quincy, Danville, Paris, Charleston, Kankakee, and Waukegan.

**Follow Presidential Trend.**

The straws for gubernatorial and senatorial candidates varied from those cast for the Presidential candidates in the sundry towns, but taken as a whole, the straws show the same trend.

For Presidential candidates in these communities, a total of 5,124 straws were collected. Of these Hoover obtained 63.71 per cent, Smith 36.75 per cent, and Thomas, the socialist, 0.54 per cent.

Compare those percentages with those for governor, on which 2,598 straws were collected. Of this number Emmerson obtained 62.28 per cent, Thompson 26.18 per cent, and Koop, the socialist candidate, 0.56 per cent.

During the primary contest for the gubernatorial nomination for governor, friends of the secretary of state proclaimed to the commonwealth his ability as a vote getter. His record in the last two state elections was cited in comparison with that of Gov. Small. Also, it was shown that Emmerson's plurality in 1920 was larger than that of Coolidge. But against the President there were two major candidates, while against Mr. Emmerson there was only one.

**Runs Ahead of Hoover.**

The real test of Mr. Emmerson as a vote getter will come in comparison with his vote next month with that of the gubernatorial straws collected. Emmerson's percentage was 0.54 above that of Hoover, which indicated that he is running about 7,000 votes ahead of the presidential candidate. But the relative position between the two may be changed by later straws.

In the senatorial race, the most interesting feature of the straws to date is the clear indication that the name of Anton J. Cermak, the Democratic candidate, is not pleasing in the cities canvassed. Cermak's percentage is 33.17, while Smith's is 36.75. On the face of those figures, Cermak appears to be running 25,000 votes behind Smith, although the presidential candidate has a record against prohibition as impressive as that of Cermak.

### Stubborn Cough Quickly Ended by Famous Recipe

Here is the famous old recipe which millions of housewives have found to be the most dependable means of breaking up a stubborn, lingering cough. It takes but a moment to prepare and costs little, but it gives real relief even for those dry, raspy coughs that usually follow the "flu."

From any druggist, get 2½ ounces of Pinex, pour it into a pint bottle and fill the bottle with plain granulated sugar and mix well. Then you can make a full pint of better remedy than you could buy ready-made for three times the cost. It never spoils and tastes good. It is good for children like it.

Not only does this remedy soothe and heal the inflamed throat membranes with surprising ease, but also it is absorbed into the blood, and thus reaches the bronchial tubes, thus aiding the whole system in throwing off the cough. It loosens the phlegm and eases chest soreness in a way that is really astonishing.

Pinex is a genuine, well-tempered compound of genuine Norway Pine, containing the active agent of croscite, in a refined, palatable form. Nothing else in medicine is more helpful in curing chronic coughs, chest colds, and bronchial troubles.

Do not accept a substitute for Pinex. It is guaranteed to give prompt relief or money re-

## Bundesen and Wolff Rivals for Coroner; Careers Sketched

Dr. Herman N. Bundesen is the Democratic candidate for coroner. It is contended that

there has been noted a growing tendency in American cities to place a physician instead of a politician in the coroner's office, and this fact is said to be attracting support to Dr. Bundesen's candidacy.

The candidate is for 8 years commissioner of health of the city of Chicago. During those years the city's death rate dropped perceptibly. The health department's statistics show:

### Death Rate Decreases.

In the seven years before Dr. Bundesen became health commissioner, the average death rate among Chicagoans was 12.7 per 1,000 population, which was the highest since 1915. In 1922, the county board named him coroner to fill a vacancy created by the resignation of Peter M. Hoffman, who became sheriff. Mr. Wolff was elected to succeed himself in a special election the following year. He was reelected in 1924.

### Born in South Chicago.

Born 53 years ago in South Chicago, the candidate still resides in the same district with his family at 10611 Avenue H. He quit school at the age of 13 to help support his widowed mother. He is now, according to his campaign literature, financially independent of the \$3,000 salary of his office and large golden property income for industrial development in Chicago.

The coroner has been a member of different political factions at various times. After leaving the Thompson-Lundin camp, he became Deneen candidate for board of review against Charles V. Barrett in 1926. In the fall of the same year he supported the Crowe-Barrett-Galpin ticket and in the spring of 1927 was the Lundin-Robertson candidate for city treasurer. He defeated the Deneen candidate, C. Fisher, in the primary last spring.

### Wards Drivers Licensed.

Recently Dr. Bundesen was elected to the presidency of the American Public Health Association, over whose convention at the Stevens hotel he is now presiding. He is also the health director for the sanitary district of Chicago.

Dr. Bundesen was born 46 years ago in Berlin, Germany. His father was a Dane and his mother German. In his infancy his father died, and his widow mother brought him to Chicago. At 12 years of age the boy was selling newspapers for a living.

### Honored by N. U. School.

He worked his way through the medical school of Northwestern University, which has since given him a professorship in sanitation, hygiene and education unequalled in the history of Chicago. He joined the Chicago health department in 1914, later becoming epidemiologist, and in 1921 he was appointed commissioner of health by Mayor Thompson.

When Mayor Dever was elected, and brought in a change of administration, Dr. Bundesen was retained in his post for the four years. In Mayor Thompson's present term Dr. Bundesen survived for nearly a year, until finally the mayor brought about his ouster. On the day of his leaving office, the city council unanimously adopted a resolution exonerating Dr. Bundesen for his service to the city.

Dr. Bundesen was married to Miss Rega Russell in 1909 and has six children. He lives at 7414 Oglebay avenue.

## Reduce the Acid

In sick stomachs—instantly

Sick stomachs, sour stomachs and indigestion usually mean excess acid. The stomach nerves are over-stimulated. Too much acid makes the stomach and intestines sour.

Alkaline kills acid instantly. The best form is Phillips' Milk of Magnesia, containing the active agent of croscite, in a refined, palatable form. Nothing else in medicine is more helpful in curing chronic coughs, chest colds, and bronchial troubles.

Do not accept a substitute for Pinex. It is guaranteed to give prompt relief or money re-

fund.

## BORAH DEPICTS HOOVER AS THE TILLER'S FRIEND

## COOLIGES TO SPEND THANKSGIVING PERIOD AT CLUB IN VIRGINIA

Washington, D. C., Oct. 17.—[Special.]—President Coolidge has accepted an invitation to spend the Thanksgiving holidays at the Swanana Country club, near Waynesboro, Va. The President and Mrs. Coolidge plan to leave Washington on Wednesday, Nov. 28, and return the following Sunday. The trip will probably be made by motor as the country club is only fifty-two miles from the White House.

The board of governors of the club and Gov. Harry E. Byrd of Virginia extended the invitation to the President. The board had invited Mr. Coolidge to open a field branch of his country club on several previous occasions, but this is the first time the President has been able to accept.

In urging the President to spend his 1922 summer vacation at the Swanana Country club, the board of governors pointed out that the clubhouse is located 2,500 feet above sea level. The building is commodious and occupies the center of a large estate.

Charlotte, N. C., Oct. 17.—[AP]—The world war food administration record of Herbert Hoover was declared to have been "entirely friendly" to the American farmer by Senator William E. Borah of Idaho, in his second campaign address here tonight in the traditionally Democratic state of North Carolina.

The senator said that Hoover did not have in his food administration "one iota of power" except that delegated by President Wilson, nor did he adopt any other course than a friendly one toward agriculture.

"He was vigilant at all times," he continued, "to do the very best he could for the protection of the American producer, and the record will bear any investigation which any one

of the many they search the record, the more it appears conclusively that Mr. Hoover was constantly supporting the American producer and making every effort to secure him a fair profit."

Senator Borah's address was delivered probably the largest number of auditors he has reached during his campaign trip through the "solid south" states of Virginia and North Carolina. Three halls in the city were equipped with amplifiers to carry his speech from the Auditorium to overflow audiences, while outside the auditorium amplifiers were installed for listeners who were unable to enter. In addition, his speech was broadcast over the nation by a coast-to-coast radio hookup.

Says Wilson Fixed Price.

Democratic opponents who claim that Hoover fixed the price of wheat in 1919 were declared by the senator to be in error, because President Wilson "fixed the price upon the recommendation of a board made up in the majority by agriculturalists."

Another Democratic charge that the Republican nominees "beat down" the prices of farm products after the armistice was discredited by the senator, who said telegrams at that

the Illinois Association for Criminal Justice, in cooperation with the Chicago crime commission, reported on Aug. 12 that there were incompetent physicians on the staff of the coroner's office. This aroused a storm of controversy. Coroner Dever reported that it was difficult to obtain high grade pathologists for the \$250 a month paid by the coroner's office.

Following the indictment of Morris Eller, the coroner announced that he was severing all connections with the 20th ward boss. He discharged two deputy coroners who had been Eller appointees.

## IDENTIFY NINE AS PARTICIPANTS IN POLLS THUGGERY

Witnesses Name Senator as Inciter of Slugging.

(Picture on back page.) Nine of sixteen defendants, alleged henchmen of Boss Morris Eller of the 29th ward, had been identified in court as the third day's session of their trial closed last evening before Judge John M. O'Connor. They are on trial as conspirators in election shootings, sluggings, and other violence, including the murder of Octavius C. Granady, Eller's opponent for ward committeeman, slain with sawed-off shotguns last primary day, April 10.

Chief among those named yesterday was State Senator James Leonardo, who sits among the men at the bar. Russell B. Sampson, a worker for the Judge Swanson organization, and C. Ray Hansen, a lawyer, watched for the bar association and special attorney for the board of election commissioners, both named and identified Leonardo.

### Tell of Going to "Jail."

The two men and the state senator, a group of eight or ten men, to slug them, beat them with revolver butts, threaten their lives and finally imprison them for hours in an improvised "jail" which the Eller workers installed in a vacant flat at 1852 Peoria street.

A third witness of the day was Willie Strumbo, a colored man, one of Granady's workers, who was beaten with pistols, fired upon and also taken to the "jail" to be kept there from 9:00 a. m. until dark.

In addition to Senator Leonardo, the men named and identified by witnesses are Peter Facelli, formerly a policeman on State's Attorney Crowe's staff; Sam Bardin, a bailiff; Joe Barcley, John Amondo, Rocco Fanelli, Eddie Brownstein, Benny Jacobson, and Sam Kaplan.

### Can't Identify Hochstein.

Harry Hochstein, chief lieutenant of the Eller organization, was named yesterday by Strumbo, as having kicked another colored prisoner, Joe Robinson, in the face, but Strumbo on cross examination admitted he could not identify Hochstein. Other defendants not yet identified are Abe Klein, a kinman of the Eller's, Morris Brownstein, brother of Eddie Sam Pollar, and Andrew Reed.

Sampson and Attorney Hansen both testified they were kidnapped from the 1st precinct of the 27th ward, adjoining the 29th ward. This polling place, they said, was at 1059 West Polk street, a section jutting into the domain of Morris Eller and his son, Judge Emanuel Eller.

"I was taken to the polls in a garage about 5:30 a. m. on April 19. He testified Senator Leonardo was there when he got there. He said, under questioning by Edwin J. Raber, chief of the prosecution staff, that he protested about the manner in which the voters were balloting under "instructions" and that Senator Leonardo finally gave him some "further advice."

"Senator Leonardo went out," Sampson testified. "As he was going he said to me that he wouldn't be gone ten minutes before I'd be in a hell of a lot of trouble!"

### Design with Revolvers.

Q.—What happened next? A.—Four men came in. After they had voted they went out and their actions caused Mr. Hansen to ask me to go out and look at the license number of an automobile in which they had driven up. In a few minutes they came back and started beating us.

Q.—What did Leonardo do? A.—He said, "I am going to be plenty of hell." Then the men dragged us to their car, beating us with their revolvers all the while. They kept on beating us while we were being driven to the flat in which they kept us all day.

Q.—Did any one take anything from you? A.—Yes, they took my watch, a fountain pen, and pencil, and \$22; I never got it back.

Sampson, at the suggestion of Prosecutor David D. Stansbury arose and walked among the defendants, identifying Rocco Fanelli, as one of the men who beat him. He also identified Senator Leonardo.

Mr. Hansen corroborated Sampson's testimony generally, amplifying it. He said he was told the man who told which the voting was carried out, told of asking Sampson to look at the license number of the gangsters' car, and then came to the kidnapping.

"Eight or ten men with pistols and sawed off shotguns surrounded Sampson and myself," he testified. "One struck me on the jaw with a pistol and another hit me on the back of the head. One said, 'Come out of

## FRAUD IN CROWE, GALPIN WARDS UNDER JURY EYE

Delve Into Discrepancies in Registration.

CRIMINAL COURT  
Casper Corley and Paul Mathews, burglars [charged to larceny], sentenced to 1 year each in the Bridewell by Judge John J. Sullivan.

Owen Woodson, larceny, sentenced to 1 to 10 years Pontiac reformatory by Judge Ira Rymer.

The special fraud grand jury yesterday started delving into frauds com-

mitted in the home wards of Homer K. Galpin and State's Attorney Crowe, two of the main leaders of the Thompson-Crowe-Galpin "America First" ticket, which was defeated at the April primary.

Assistant City Prosecutor Claude Perrin was questioned by the jury regarding frauds alleged to have been committed in the 10th precinct of the 29th ward, Crowe's ward, and Assistant State's Attorney Louis V. Keebler is to be questioned today regarding the voting and registering of floaters out of a west Monroe street rooming house, in the Galpin stronghold.

Recall Precinct Officials.

Attorney Perrin is alleged to have taken over the clerkship of an inexperienced woman clerk in the 29th ward polling place, where some unusual figures ultimately appeared on the tally sheet. It is reported to have denied certain statements made in the possession of Assistant Attorney General Thomas H. Slusher, and to result all officials from the precinct will be recalled before the jury.

It is reported that the grand jurors are desirous of voting some perjury true bills as a result of apparent discrepancies in the testimony given by various witnesses called before them.

Woman Blames Prosecutor.

Mrs. Anna Wagman, wife of Max Wagman, well known west side character, was before the jury to explain how "92 names appeared on the night hours affidavit filed from a place at 1659 West Monroe street. An investigation showed that not more than 35 persons could or did live at the place at election time. She is reported to have said that Prosecutor Keebler, a follower of Galpin, fixed up the affidavit and that she merely signed it. Keebler acted as the notary on the affidavit, it was said.

## Evangeline Booth Bans All Politics in Salvation Army

New York, Oct. 17.—[Special]—An order from Commander Evangeline C. Booth deeming the "Salvation Army is not in politics and neither our members who are not officers are employed to take part in the election" halted the plans of Lieut. Col. Wallace Winchell to give a lecture on "Six Months with Herbert Hoover in Belgian Relief." Winchell had planned to illustrate his lecture with closeups of vessels which set out in search of Mr. Hoover and to follow with a talk on "Hoover the Man."

There appears to be only one slim chance that Mr. and Mrs. Mitchell could find in the storm. That chance is to seek refuge in a lighthouse promontory six miles from here.

Menominee's fishing fleet of a score of vessels which set out in search of Mr. Hoover and to follow with a talk on "Hoover the Man."

## WHAT A DOCTOR KNOWS ABOUT CONSTIPATION

There is a way of overcoming the tendency to constipation. And here is how you can PROVE it.

The next time your bowels need any assistance, don't take the first drug that comes to mind. Take the drug that you know you are made as using cascara. Just as effective as using force, and it's good for the system. Indeed, it helps make good blood. For cascara is nothing but the bark of a tree. The Indians chew this bark, and live to an old age without a day's sickness.

What happens when you cascara the bowels? They will usually function well for SEVERAL DAYS. One more dose—no larger, and perhaps smaller than the first—and the bowels function of their own accord for a still longer time. Until you don't feel the

need of any aid of any sort for weeks on end.

So, the only habit you get from cascara is that of natural and normal regularity. How different from things one must usually repeat on the morrow! Cascara is the ideal laxative; and the familiar laxative Cascarets is doubtless its ideal form. Children beg for these tasty tablets, and many men and women wouldn't think of taking ANYTHING else for the purpose. And EVERY drugstore has them.

## CITIZENSHIP OF HOOVER PROVED BY STATE PAPERS

### Records Give Answer to "Whisper" Attack.

Washington, D. C., Oct. 17. (Special)—In answer to inquiries regarding reports relating to Herbert Hoover's citizenship circulated in a "whispering campaign," the state department today gave the facts as shown by passport records.

In a letter to an inquirer signed by W. R. Castle Jr., acting secretary of state, it is pointed out that Mr. Hoover registered at the American consulate in London in 1908, giving his permanent residence in the United States. At the bottom of the registration blank Mr. Hoover wrote: "I have, in the practice of my profession, journeyed abroad to various countries from the United States for eleven years."

Applied for Passports.

While passports were not required in any country except Russia and Turkey before the war, Mr. Hoover made application to the state department for passports to go to Russia in 1909, 1911 and 1913. Other passports were issued to him in 1915, 1916 and 1918.

"In all applications for passports, as well as in the original registration at the consulate, Mr. Hoover established and maintained his permanent residence," said Mr. Castle. "In every application he signed the usual form that he intended to return to the United States with the purpose of residing and performing the duties of citizenship. There never has been the slightest question of Mr. Hoover's American citizenship."

"I might add that as long ago as 1920 the department heard a rumor that at one time in his career, Mr. Hoover had applied for British citizenship. Merely as a passing interest, I may say that certain inquiries were made at the time and it was proved to the entire satisfaction of the department that this rumor had no basis."

Work Assails "Whisperers."

Dr. Hubert Work, chairman of the Negro national committee, supplemented the state department letter with a denunciation of the whispering campaign against Mr. Hoover.

"One phase of these whispers," said Mr. Work, "is to the effect that Mr. Hoover voted in a British election. This is untrue. He never voted or tried to vote. But there is in course of preparation an attempt to deceive the American people on this point which necessitates that I should further amplify."

Mr. Hoover's name appeared on two or three occasions during the period from 1919 to 1924 on a printed register of persons entitled to vote in a precinct where he rented a house near London and upon which he paid taxes. Any one who rents a house in England pays taxes. The voting register in England is not a personal registration as it is in this country, but the voting roll is made up by a return from the taxing authorities to the election authorities, informing them of the names of taxpayers, there being a tax requirement for a vote in that country. But all taxpayers are not entitled to vote in England any more than in this country.

The voters' list for the election was believed not to be available.

Exchange dispatches said the author of the letter was William Young, 1539 Breda street, St. Paul, Minn.

### SEEKS CLEW TO HOOVER VOTE AS BRITISH SUBJECT

LONDON, Oct. 17. (UPI)—The mayor of Johannesburg, South Africa, has received a letter from America asking him to investigate whether Herbert Hoover, Republican presidential candidate, voted in the Transvaal election several years ago, according to the Daily Mail correspondent.

The letter pointed out that if Hoover voted he had therefore assumed British nationality and was disqualified from the United States presidential nomination.

The voters' list for the election was believed not to be available.

Exchange dispatches said the author of the letter was William Young, 1539 Breda street, St. Paul, Minn.

Mr. Hoover was not aware until some short time ago that his name even appeared on the roll."

## Feeding of People of Ravaged War Lands Hoover's Third Big Task; Averts Panic

BY PHILIP KINSLEY.  
(Chicago Tribune Press Service.)

Washington, D. C., Oct. 17.—(Special)—When the guns of the world war were stilled and the spirit of Europe descended upon the troubled Europe and America Herbert Hoover was faced with the third great task of his career—that of feeding the millions in the war-ravaged lands. He was to direct relief work on the greatest scale the world had known.

On Armistice day Mr. Hoover had a plan ready. He had thought ahead and had secret reports from his agents in Europe. He had worked in America to build up immense reserves of food, as though the war was not to end for years. He had guaranteed stocks to increase production.

Had Stocks to Dispose Of.

He had these stocks to dispose of as a matter of honor. He could see a panic in this country and disaster to producers if these stocks of food were not disposed of. On the other side of the waters were populations in the enemy and liberated countries half starved for years. He wanted to get the food to them.

His first act was to get the war department to purchase two hundred and forty million pounds of flour and about forty million pounds of pork and hold this for his assignment to the territories lately held by the central powers. He sailed for Europe five days after the armistice as American director of relief.

Entered Task of Years.

He was entering a task of years that taxed his highest powers. Writing later of this period he said:

"In the heat and feelings of that day there was much opposition, but the fine character of the American people came to the front in an insistence that we as a nation must write history not in months but in centuries, and that therefore the obligation lay upon us that we should save this mass of people from anarchy and starvation."

"First, we had to get the world round and placed them in the hands of the governments of eighteen nations.

They had to restore commerce and industry and communication, to regulate the movement of food.

"Carrying that great mass of people over until the harvest of 1919 made peace possible in Europe," he said. "Had it not been for the second intervention of the American people Europe would have repeated the

history of the twelve months after the thirty years' war, when one-third of the people of Europe died. Nor did the problem end there, for this great mass of children had to be carried until such time as economic recovery among the governments of Europe would enable them to undertake the burden."

Carries Children's Burden.

He always was, it seems, carrying the burden of children on his broad shoulders. John Maynard Keynes described him at the peace conference as "looking like a weary Titan."

Hoover now made his home in Paris, taking his wife where he lived with his heads of staff, untangling the knots of the war through forty-eight departments of the peace commission. He had to get his food through the blockade, which still existed, and began his attack immediately on the supreme war council.

This, at first, was adamant, and in the meantime another trouble, which may be described as the "pork crisis," came. In a letter to Mr. Hoover to President Wilson on Jan. 4, 1919, this situation is outlined:

"I have cablegram today stating that the whole of the customary monthly orders from the British buying organizations on behalf of the allied governments have been withdrawn. The allied food necessities have been outlined from time to time by a series of programs made up by the interallied food council; the latest of these programs is as recent as Dec. 15 and calls for our entire January surplus. Our manufacturers have provided the particular type of manufacture required by each of the governments and have enormous stocks of these materials in hand ready for delivery in accordance with the indicated programs.

Exportation of Pork.

"While we can protect our armaments given producers in many communities, the most acute situation is in pork products, which are perishable and must be used. We have in January a surplus of about four hundred million pounds, and the French, Italian and Belgian relief and other customary orders when restored will cover 60 per cent of such.

The British orders, at the rate indicated in their program, would have been one hundred and forty million pounds and covered our deficiency for some help to last them for some weeks and that they wish to reduce their stocks."

"If there should be no remedy for this situation we shall have a debacle in the American markets, and with the advances of several hundred million dollars now outstanding from the banks to the pork products indus-

try we shall not only be precipitated into a financial crisis, but shall betray the American farmer. The surplus is so large that there can be no absorption of it in the United States and it being a perishable, will go to waste."

Fears for American Market.

"You will recall that measures are before the congress providing for appropriations for further economic assistance to the allied governments and I am confident that with the disclosure of this situation and the approach of the election, our political friends will cause a reaction in the United States that will destroy the possibility of this economic support."

"In the face of this demand of liberated, neutral, and enemy populations in Europe as to fats beyond the ability of the United States to supply, and the need from the point of view of preserving order and laying the foundation of peace is absolutely instant in its insistence. . . . I wish to assure you that the prices which we are maintaining are the true minimum of what the American producers can come out whole on the effort they have made in the allied cause."

The price which Hoover was trying to maintain to the producers was \$17.50 a hundredweight.

Holds to \$17.50 Figure.

"I regard the maintenance of the \$17.50 hog and the disposal of this situation as the greatest work of my life. In a letter to his Washington office, where the packers were rebelling against continuing to pay this price and adding to their enormous reserves.

Hoover won only a partial victory at this time. The blockade against the northern neutrals was lifted at to the north. He became an international drummer for pork. He got the French and Italians to take 220 million pounds, and placed 20,000 tons for the Belgians. He got President Wilson to present a memorandum to the allies promising him to keep the continuation of peace negotiations with his program for feeding central Europe.

The question of feeding Germany, however, had to be settled before the blockade was lifted, and this was another great struggle for Hoover.

"What will happen if the allies don't replace their orders and open some help to last me from the relief? The British position is that they have sufficient supplies to last them for some weeks and that they wish to reduce their stocks."

Hoover grinned, and said:

"Well, all the money that all of us have in the world would not be a drop in the bucket in paying for it. If we are going bankrupt, it certainly will be a big bust."

## KELLOGG TELLS ST. PAUL HOOVER IS MAN NEEDED

### Prevented Allies' Combine on Wheat, He Says.

St. Paul, Minn., Oct. 17. (UPI)—Secretary of State Kellogg came home today to tell the Ramsey County Womans' Republican club that he knows of no one who is more able to deal with the complex problems of this country than the Republican presidential nominee, Herbert Hoover.

Speaking at a luncheon in a downtown hotel, Secretary Kellogg declared that he had yet to hear of any really significant statement of President Coolidge's administration.

He reviewed chiefly the reduction of the national debt and the settlement of the foreign debt with foreign countries and declared that the administration had been "economical, forward looking, liberal, conducted in the interest of the people." He said it has inspired confidence and stability and encouraged industry.

"I know of no man," Mr. Kellogg declared, "who has greater knowledge and capacity to deal with the complex problems of our trade and commerce including the farm problem, all financial and governmental questions generally than Mr. Hoover, and I believe that the farmers of this country can trust his extraordinary knowledge and ability and his patriotic desire to assist the great basic industry of this country."

## LOVE NOTE HELD DEATH LURE IN SO. BEND KILLING

Couple Is Charged with  
Slaying Divorcee.

(Pictures on back page.)

South Bend, Ind., Oct. 17.—[Special.]—Affidavits charging Harvey L. Smith, missing private detective, Mrs. Jane Rhyer, and her beau, Charles L. Rhyer, with first degree murder in the slaying of Mrs. Genevieve Stults, pretty Mishawaka beauty parlor operator,

were filed in the Elkhart City court late tonight by County Prosecutor Glenn Sawyer. Joseph Bartoszek, brother of the slain woman, signed the complaint.

The body of Mrs. Stults was found on the outskirts of Elkhart late Monday afternoon, buried in a shallow pit, the skull crushed in by blows with a monkey wrench, found nearby.

Smith is still at large, sought by

police throughout the United States as the murderer. South Bend police said his capture was a matter of hours. He is said to be travelling with a carnival in Alabama.

Paid by Mrs. Rhyer.

Mrs. Rhyer confessed to the police at the time of her arrest Monday evening that she had hired Smith, who operated an agency here, to "get Mrs. Stults out of town," but that she did not know who would play her.

Mrs. Stults, a common divorcee of 31, the mother of a 12 year old girl, had carried on a clandestine love affair with Rhyer for four years, her parents said.

She had frequently received Rhyer

in her apartment above the beauty parlor in Mishawaka, they said.

He also has visited her at the home

of his parents. At one time he had

threatened to kill her if she "went out with other men," the parents said.

On the night of her disappearance, Mar. 24 she was last seen by her sister Mrs. Gertrude Bartoszek, who suspected that Mrs. Stults planned something, because she had taken over \$200 cash from her home, trailed her as far as Elkhart.

Here, Mrs. Bartoszek said, Mrs. Stults was found to go back, indicating that nothing was wrong. Mrs. Bartoszek recognized the car as Rhyer's, but could not identify the man who was driving it.

Lured by Letters.

The beauty parlor operator is said to have received a letter purporting to be from Rhyer, asking her to leave town with him.

A coroner's inquest will be held in Elkhart Friday morning at 10 o'clock. Mrs. Stults' body will be held in South Bend since the remains were transferred to Elkhart this morning.

Funeral services for Mrs. Stults will be held in South Bend today.

SEARCHED ON RAIL CHARGE.

John Miller, alias John Lewis, 31, at the Elkhart hotel 53rd street and Cornell avenue, was arrested by Hyde Park police yesterday for having passed worthless checks to the sum of \$500 on loop stores.

It is unfair to exclude student

residents in Princeton from the privilege of voting when that privilege has been given them for at least 40 years to my own private knowledge.

## PRINCETON HAS STUDENT REVOLT ON THEIR VOTES

Princeton, N. J., Oct. 17.—(AP)—Nearly 2,000 undergraduates at Princeton have threatened a trade boycott of the town, incensed at their inability to vote in the presidential election next month. President John Grier Hibben and Dean Christian Gauss entered the lists today in behalf of the students and upheld their right to vote.

The situation became tenser yesterday when more than 100 students were not allowed to register at the second election district on the ground that they did not live in Princeton during the summer. Graduate students and seminary students, however, were allowed to register.

In a statement tonight President Hibben said:

"It is unfair to exclude student residents in Princeton from the privilege of voting when that privilege has been given them for at least 40 years to my own private knowledge."

## Charged with Passing 300 Worthless Checks

John Maguire, 35 years old, 2732 North Spaulding avenue, was indicted for Circuit Judge Thomas J. Lynch, is under arrest at the Shakespeare avenue police station, accused of passing 300 worthless checks for a total of more than \$10,000. In his home the police found a printing press and dies from which, it is asserted, Maguire made impressions of checks.

## Evanston Scouts to Seek \$160,000 for New Building

A campaign to procure \$160,000 for the erection of a new Boy Scout headquarters in Evanston will be started in Evanston Nov. 8, it was announced yesterday by George B. Dryden, president of the Boy Scouts' council. The building will be erected on the site of the old Boldwood school, Demarest street and Elmwood avenue.

FALLS FROM LADDER, DIES.

Falling from a ladder while at work in the basement of the International Company, 4711 North Clark street, yesterday, Martin Leibman, 70 years old, 1616 Thorpe street, was fatally injured. He died at St. Luke's hospital.

## PENNSYLVANIA FOR SMITH?—MAY NOT BE A DREAM

Foreign Born G. O. P. Bolt  
May Upset History.

BY ARTHUR SEARS HENNING.

[Chicago Tribune Press Service.]

Pittsburgh, Pa., Oct. 17.—[Special.]

Rumors have been current throughout this presidential campaign that Smith is likely to carry Pennsylvania. The Republican managers have pooh-poohed the suggestion, regarding it as preposterous as predictions by their own unbridled optimists that Hoover would carry South Carolina.

John Raskob, chairman of the Democratic National Committee, is reported to be convinced of the practical possibility of capturing this state's thirty-eight electoral votes despite the fact that normally Republicans outnumber Democrats in Pennsylvania more than two to one. He is reputed to be expending an enormous amount of money to organize Pennsylvania for Smith, notwithstanding the state never has given its electoral vote to a Democratic candidate for President since the civil war, even in 1912 going to Roosevelt; when most other Republicans states went for Wilson.

### Why Raskob Hopes.

Whether Mr. Raskob's confidence is justified or not it takes but a glance into political conditions in this state to afford an understanding of the basis for his optimism. The foreign born voters and the voters of foreign extraction, the majority of whom are Republicans, the Republican Catholics and the wet Republicans are clear off the reservations and going "hell bent" for Smith.

The Republicans are going to be hard put to it to carry Pittsburgh and the remainder of Allegheny county, containing numerous mill towns, for Hoover. The mill hands, chiefly foreign born, have been told that they will get their beer and wine back if Smith is elected, and nothing short of the threat of discharge will keep their jobs unless they vote for Hoover. It is likely to hold them in line for the Republican ticket.

The Pittsburgh electorate is about one-third foreign born and to even a greater extent composed of persons of foreign extraction. The Italians, who are Roman Catholic, and the Hungarians, the majority of whom are Protestants, invariably have voted the Republican ticket, and the Germans, who are partly Catholic and partly Lutheran, have been Republican since Wilson failed to keep us out of war. These groups are almost solidly for Smith in this election.

### Italians Strong for Smith.

The Italians have been holding mass meetings with which it is acclaimed for his advocacy of a change in the immigration restriction law, whereby the bars would be let down to Italian immigration. The existing law was devised to cut the immigration of Italians and other southeastern Europeans to a negligible fraction. This was the purpose of the first restriction law which based the quotas on three per cent of the foreign born in the country in 1910, Italian immigration immediately dropped to a fraction of its former volume. Then the quota basis was changed to two per cent of the foreign born population in 1920, and that virtually excluded Italians and other south and eastern Europeans. The Italian quota is now 845.

The Pittsburgh Italians are shouting for Smith as the prospective restorer of their wine, but they are putting great stress on the immigration proposition also. The Italian leaders are telling their people that Smith is coming to change the quota basis to a percentage of foreign born population of 1910 or 1920. They hold out hope of the percentage being restored to them.

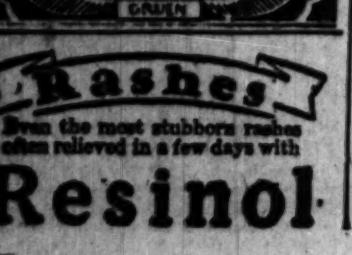

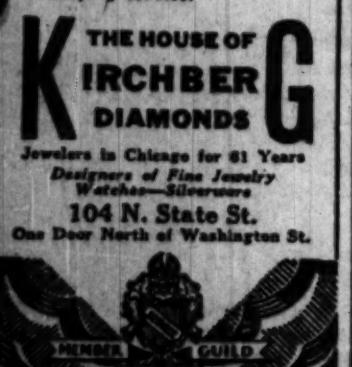

### Show in "Occupation Tax."

There is a curious bit of evidence of the extent of the Republican disaffection in the foreign quarters of Pittsburgh. In order to register the voter must produce a receipt for taxes paid in full for the last two years. There is an occupation tax of 90 cents for a housewife, \$1.05 for a laborer. It

### Give him this modern strap watch

The Imperial Tank—one of the newest creations of the Gruen Guild. Its sturdy 14 k. solid gold case, essentially mask-like in design, incloses a fine Gruen movement that assures dependable time-keeping service.

BRAZIL, Oct. 17.—(AP)—The state of Para has been asked to grant concessions to a Japanese company headed by Hachiro Fukuhara under similar conditions to those governing the concessions recently made by Brazil to Henry Ford for colonization and the exploitation of rubber. Fukuhara has requested grants in various districts of the state, and if he receives the concessions will begin the construction of the first immigrant station at Acara early in November, with the possibility of ten-Japanese families arriving about Dec. 1.

has been customary for the Republican organization to part the tax of controlled voters in large blocks and distribute the tax receipts on the eve of registration.

This has been the practice in the foreign quarters, where there are

large numbers of laborers who ordinarily fail to pay their occupation taxes, and therefore are not eligible to vote. This year, however, the Republican organization distributed no tax receipts in the foreign quarters of the registration districts, which were off the reservation and were going to vote for Smith, and the Republican organization suddenly lost its customary interest in getting them registered. The Democratic organization, however, was interested this time, and a large part of Mr. Raskob's allotment of funds to Pittsburgh is said to have been invested in tax receipts for Republican bolters in the foreign quarters.

Dry's May Offset Flop.

The Pittsburgh registration was swelled to 183,000, a 44 per cent increase over four years ago. It was even heavier in the residential than in the tenement sections of the city.

There was an enormous outpouring of foreign born voters, which are politically dry and Protestant, circumstances which cause the Republican leaders to assert that the defections suffered among the foreign born have been more than offset elsewhere.

While some Democratic leaders

profess confidence that Smith will carry Pittsburgh, others are dubious, pointing out that this is the political stronghold of the house of Mellon, and that the Mellons never hesitate to spend whatever money is needed to win an election.

It has been demonstrated by the revelations of the election manipulations in Pittsburgh that the Mellon machine has nothing to learn from Tammany.

The reputation of Secretary of the Treasury Mellon as a great political boss was shattered at the Kansas City convention. All through the primary campaign he had been cool to the candidacy of Mr. Hoover and had favored the renomination of the President.

Mellon Not Dethroned.

Mellon, maintaining a mysterious silence that enhanced the general sus-

pense, was to say whether Hoover should or should not be nominated. When he reached Kansas City the politicians were holding their breath. At that moment up rose Boss Bill Vare of Philadelphia, saying that Pennsylvania would be for Hoover, and without waiting for word from Mellon the wavering delegations rushed for the bandwagon. It was all over before Uncle Andy knew what had happened. His brief retirement as a political dormouse had been pricked by one who had had more experience in political

business. Hoover should be nominated.

Los Angeles, Cal., Oct. 17.—(Special.)

Long trains are more hazardous than short trains was introduced yesterday at the hearing before the federal fact finding commission investigating the wage controversy between the western railroads and their train service employees.

Testimony purporting to prove that

long trains are more hazardous than

short trains was introduced yesterday at the hearing before the federal fact finding commission investigating the wage controversy between the western railroads and their train service employees.

Witnesses for the employees testified that accidents are more likely to occur with long trains than short ones, and that it is more difficult to read signals correctly in trains of ninety car length. It was claimed that shocks to trainmen in cabooses on the unusually long trains were almost as great as shell shocks.

However, Secretary Mellon is still

boss in these parts by virtue of his money and the vast influences he commands in a network of banks, mines, mills, and other enterprises, and it is going to be no easy matter for the Democrats to wrest Pittsburgh from him.

## THE TRIBUNE'S PLATFORM FOR CHICAGOLAND

1. Make Chicago the First City in the World.
2. Start the Subway.
3. Electrify the Railroads.
4. Abolish the Smoke Poll.
5. Grade Separation on Through Streets and Boulevards.

### SMITH IN CHICAGO.

Gov. Smith has come to Chicago for a speech and a visit such as his campaign will permit. The city receives him as a candidate, as a governor, and as an American citizen it respects. It will not be all a partisan greeting. Al Smith represents good state government. There have been times here in Illinois when it has been despaired of. There have been eight unbroken years of contemptible state administration, with a period of the city administration just as bad.

Al Smith did not have a much different brand of politics and politicians in New York than are here, but he proved that state administration could be honest and decent, thoughtful, and able. We admire him for that. It has been an achievement of character and intelligence. American states frequently offer considerable discouragement to the democratic theory.

The governor is here as a candidate. Even politically he will find it a friendly city. He may or may not carry it. We'd not advise him to have much hope of Illinois, but he may find Chicago in his pocket the night of Nov. 6 even if he does not get the Illinois electoral votes. In a good many social theories the city and country do not agree, having conflicting ideas derived from different environments and different requirements. In this respect Al Smith is a city man. As the governor of a great state he has been successful in dealing with both urban and country problems. If country opinion cannot agree with him in all his social ideas, it does not follow that he is unsympathetic on questions affecting the country.

These things and much more can and should be said for a candidate THE TRIBUNE does not support for the election. We like the candidate. His candidacy has been a good thing for the country. It has forced more honest dealing with some questions which timid and evasive politics was trying to obscure. He has aroused some prejudices. It has not been bad to give them an airing. Thousands of Chicago Republicans who will vote Republican have the highest respect for the Democratic candidate.

It will be a close question with them, but they will vote for Mr. Hoover. An exceptional Democratic candidate is opposed by an exceptional Republican candidate. THE TRIBUNE, in supporting Hoover, finds much in the policy of the Democratic candidate which it wishes the Republican party had the courage and intelligence to avow.

### AMERICA BLUSHES.

The custom official responsible for the general welcome given the passengers and the crew of the Graf Zeppelin at Lakehurst ought to be removed or punished in some way that will impress him. He won't be, and there may be some justice in that. For, after all, he acted in the spirit of the revenue service as developed in recent years. The real responsibility is not with subordinates. The dry law enforcement division has brought into the revenue service new methods and manners and its influence cannot be confined to the pursuit of scofflaws. Inevitably, if dry law enforcement condones outrages upon citizens, shoots on suspicion, malice and kills without apparent compunction, the regular customs service is certain to assume that rough handling of arrivals is negligible if not commendable.

The treatment of the Graf Zeppelin passengers and crew in not so serious as the killing of an American citizen on suspicion of scofflaw, but it is a disgrace to our service and a humiliation to the nation. We trust the victims of the Lakehurst boorishness will be inclined to make a generous allowance for official blundering, as they may find it easier to do if they realize that many Americans have suffered worse consequences and that the spirit shown at Lakehurst is not that of the American people, who cordially welcome them to our shores.

### NORTH AND SOUTH AMERICA DRAW CLOSER.

The correspondent of the Tribune Press Service at Lima reports the formation of the Peruvian Airways corporation as a part of the Aviation Corporation of America, which is developing a system of combined steamship and airplane transport similar to that which American railways are establishing in our transcontinental passenger service. When the system is in operation journeys which took days will be shortened to hours, and North and South America will be brought many days nearer each other. Even the east coast countries of the latter continent and its interior regions will be brought within easier reach.

This development will carry us into a new epoch in our relations with South America. The shorter the communications between the two continents, the easier we can carry on business together. Business necessitates constant exchange of communications, and if these are weeks on the road business is retarded and discouraged. Business also requires travel back and forth between the countries, and if this is accelerated South American and North American business men will find

it easier to visit their respective markets, establish their own connections, and cooperate easily and effectively in the development of business relations.

The extension of airplane service, especially in practical connection with rail and ship transport, should be a prime object of policy in both continents. Mr. Griff's report of Peruvian enterprise in this field is encouraging.

### TEMPERAMENT AND TRACTION.

There are evidences of ill feeling between the Frankhauser committee, which has drafted a traction settlement ordinance, and the representatives of the various transportation companies. The mental attitude on both sides of the conference table, is not calculated to bring about an agreement. Pride of authorship on the one hand and pride of opinion on the other appear to be preventing an examination of the proposals on their merits.

The situation is particularly unfortunate in view of the fact that the aldermen and the representatives of the street car companies both have ample reason for desiring a speedy reorganization of the transportation companies in the interest of the car riders and of the security holders. The city has had no substantial improvement in its street car or elevated service in twenty years. One of the surface lines is in receivership, both of them are operating on temporary franchises, and the elevated lines are far from prosperous. A reorganization which will enable the companies to increase their facilities and restore the value of their depressed securities is universally desired.

The Frankhauser committee should realize that its proposals are not above criticism and improvement. The members of the committee, in presenting their draft for consideration, could not have expected universal assent. The companies have pointed to one obvious fault in the committee's scheme, the provision by which a politically appointed commission of control is to have almost unlimited power to determine where extensions and betterments will be made and to control expenditure for other purposes as well.

We do not absolve the companies from responsibility for the present impasse. In all the years during which a settlement should have been made, the traction companies have failed to produce a plan which was acceptable. The companies have not even agreed among themselves upon what they want. The council committee has been obliged, therefore, to take the initiative and if every reasonable demand of the companies has not been met in the committee's draft, the companies are in no small measure responsible.

The outstanding fact about the Frankhauser draft is that it furnishes a basis for discussion. The outstanding fact about Chicago's transportation lines is their essential soundness for investment and for service to the public. The surface lines are in good condition. Their business has been steadily mounting for years. There is \$50,000,000 in cash in the traction funds which may be used in a reorganization. Here are the elements which should make an agreement possible as well as desirable. It will be unfortunate in the extreme if temperamental difficulties are allowed to prevent an agreement before the legislature meets in 1929. If the city and the companies can iron out their differences, the probability of obtaining needed enabling legislation will be greatly enhanced.

### ROTARY.

Recently in Toronto the founder of Rotary defied it from the criticism, ridicule, joking, and disparagement of satirists, intellectuals, nut-wits, egotists, and megalomaniacs. Why take the trouble? Rotary should go its way, call itself Bill, sing its songs, listen to the piano, the saxophone, and the banjo, salute the flag, eat its lunch, and go back to work until next Tuesday or Wednesday, meeting again then in the main dining room of the best hotel in the town or village with such guests as may happen in at the time.

Rotary tells itself that there are little community jobs that it can do. There's a school or a boy or a public work which can be helped along without any expectation of getting the Nobel prize or a foreign decoration. It produces some good barber shop chords and some snappy speakers. Its enthusiasm and friendships are no more unreal or overstimulated or overexpressed than the same in any meeting of homecoming grads and the conduct is always of a much higher standard.

It is one of thousands of American organizations, but, unlike most of them, it is always in the open, and the sound of its meeting is always all over the hotel and frequently all over the town square. Its critics, the intellectual small-wits, who laugh at it, haven't anything but smartness passing for intelligence. They form the really absurd clique in American life.

There is no record of which we know to indicate that Rotary ever meddles in things beyond its information, good judgment, or comprehension, that it has tried to direct foreign policies, to save the Hittitians, to make an international scandal out of the execution of men condemned for murder in a country which lets most of its murders go unhang, or find in the circumstances of American life chiefly reasons for American humiliation. That probably is why it is so funny.

### Editorial of the Day

#### THE MERIT OF AMERICA'S PROSPERITY.

[Dundee Courier.]

It is pleasing to find a British lecturer with the courage and originality of Prof. A. A. Young, who at the British association yesterday challenged the view that American prosperity is the product of the superior ability, organizing power, and temerity of the Americans.

Of all this the Americans themselves have not a doubt, and they are building up a "superiority complex" on the strength of it which may have queer results in the world policy of the future.

According to Prof. Young, except in the results, there is no proof whatever that American industry is better than ours, that its leaders study its problems more intelligently and plan more courageously and wisely.

As for the results, he attributes them chiefly to the extent of the American domestic market unimpeded by tariff barriers.

That the great American property—not, by the way, quite so assured today as it seemed a year ago—is chiefly a product of circumstances rather than of exceptional merit we have never doubted.

Of these circumstances one is the great home market—the largest free trade area in the world—and its importance can hardly be overrated. But there are others—possession of vast resources and area and complete immunity from the shattering effects of war.

Given the circumstances of the United States during the past ten years, no race, lifted above barbarism, could have avoided prosperity.

It is a good thing to have the prevailing view challenged, for acceptance was fast establishing a British "inferiority complex" as well as an American "superiority complex."

## How to Keep Well

By Dr. W. A. Evans

To the limit of space questions pertaining to hygiene and prevention of disease will be answered in this column. Personal replies will be made to inquiries, under proper limitations, when return stamped envelope is inclosed. Dr. Evans will not make diagnosis or prescribe for individual cases.

TANNING HIS LEATHER.

L. W. writes: I want to tell you some personal experiences which do not harmonize with your article, "To Tan or Not to Tan." I was fishing in the rapids of the Potomac river. To facilitate wading I stripped to my undershirt. For the entire day I stood in water deep enough to reach my single garment, for the noon sun made it evident that any part exposed would be burned. During the brief time that I tried to keep my shirt dry I raised a rather painful blister between it and the water, which I assuaged by standing in deeper water afterwards. Result: I blistered my legs completely from shirt tail to toe! So perfect was a job I never heard of anybody else accomplishing.

As to tanning, inquire, or any fish that swims. Their dark backs and light bellies tell the tale. To me it goes completely with setting fire with a burning glass made of ice.

As to tanning, inquire, or any fish that swims. Their dark backs and light bellies tell the tale. To me it goes completely with setting fire with a burning glass made of ice.

One of my physical disabilities is that I am wrapped in a bum piece of leather. It is very thin and delicate and gives through the hide. I have always longed to get away to one of those choice localities where a shoestring and a pocket handkerchief will be a dress suit, but my clothes were all...

This summer, having become old and desperate, I argued thus: Let me put on a legless, sleeveless, frontless, backless bathing suit, and I may walk past Mme. Grundy en route to the lake and receive her smiles. I will, in similar attire, walk into my garden, and there perform my daily task, and let the Mme. go hang. I did. I started June 1, and I have scarce missed a day since. And, so far as I am aware, the Mme. is complaisant.

—

Result: Barring a medium fraction I am like a farmer's neck from hair to toe nubs. My legs are whole, without a single abrasion, a condition I never knew before. I suffer not at all from contact with objects. I get down on my knees with impunity. Heretofore I had to use cold cream on my legs to prevent scratching; for the least flick of the fingernail would leave a mark for days.

I believe I am younger in every way except dead reckoning. I assuredly have more pep and not a hint of inconvenience. No chill, no rheumatic twinges or warnings. I put in an average of 5 hours a day thus clad and without a hat.

—

EFFECT OF WOMEN'S SMOKING.

R. G. W. writes: Does smoking have a greater effect on women than on men?

REPLY.

I don't think so.

—

THINKING ALOUD.

Mrs. A. E. G. writes: Why does a person talk to himself when alone or thinks out loud?

REPLY.

At a basic reason some psychologists say we do through some of the processes of thinking as a fundamental in all thinking.

Following through, talking their thoughts out loud. Some go through certain lip movements without making any sound. When alone, certain people have an impulse to talk. This urge is sometimes related to what you write about. There are certain types of insanity in which the urge to talk is not resisted.

—

TEMPER IN CHILDREN.

Mrs. W. writes: What is the best treatment for a 2 year old, very bright child, who holds her breath when she is in a temper?

REPLY.

As a basic reason some psychologists say we do through some of the processes of thinking as a fundamental in all thinking.

Following through, talking their thoughts out loud. Some go through certain lip movements without making any sound. When alone, certain people have an impulse to talk. This urge is sometimes related to what you write about. There are certain types of insanity in which the urge to talk is not resisted.

—

HINKEY DINKEY PARLEY VOO.

Mrs. W. writes: What is the best treatment for a 2 year old, very bright child, who holds her breath when she is in a temper?

REPLY.

This is a manifestation of anger. It is the result of bad training. The remedy is training.

The Ghandi treatment is best. This treatment is one of physical punishment. Far better to the breath holding than a temper tantrum. However, never allow the child to gain his point by this procedure.

—

THREE MATTER OF A DOCTOR BILL.

Marion, Ind., Oct. 12.—[Friend of the People.]—A wife is awarded \$5 per week for the support of her child, for two years later she presents a divorce bill of \$75 for the child.

Is the husband compelled to pay this amount, or any other bills, in addition to the amount awarded? His salary is less than \$25 per week. The divorce was granted in Chicago and both parties still live there. A. B. C.

If the wife is not the doctor she would not be entitled to collect from her husband without a special court order.

TRIBUNE LAW DEPARTMENT.

—

MAY 11.—Poor man who

has 6 children and is earning only about \$20 a week is arrested tonight on a warrant and put in jail. His wife does not come up to bail him out. Now, he has no money himself, had to secure the active cooperation of enemy nations when war hatreds were at their height, had to get shipping when boats were at a premium, but he did the tremendous job successfully and in so modest and unassuming a manner that he won the confederate draft.

CHICAGO.—Railroad passenger officials estimated yesterday that 60,000 persons had been brought here so far to attend the peace jubilee. Today, despite the windstorms of yesterday and the cold weather, they expect to bring 100,000 more visitors to the city.

CHICAGO.—In the warmth of the clasp of hand to hand President McKinley came nearer to 3,000 hearts. For 65 minutes he stood with uncrowned head in an improvised reception room in the armory, greeting in turn each individual of the 45 minute he had to speak.

KANSAS CITY, Mo.—The grand jury returned indictments for Jessie James Jr., son of the noted outlaw, and four others for holding up and robbing a Missouri Pacific train at Blue Junction on the night of Sept. 23.

FRANK THE DEMON DRUMMER.

—

THE COURT found a man \$25 yesterday in Little Rock (Ark.) for passing literature opposing a bill in the legislature to forbid the teaching of evolution.

Well, anyhow, they didn't break him on the wheel or strike his head off and put it on a spike over the main door of the state house. Arkansas is progressing.

E. H. W.

You state in your letter that you are to move from one town to another on or about Nov. 12. I understand the reason involves a removal from one predict to another, we have to say that inasmuch as the constitution requires a residence of 30 days in the state to be eligible for election, I understand that one could vote at a presidential election by affidavit. Will we have to forfeit our votes? We have lived in Forest Park all our lives and at the present address for the last four years.

H. E. W.

EST MAN

## GREEN LIKENS LABOR UNIONISM FIELD TO CHURCH

Tells Episcopalians Their Work Parallels.

BY DR. GEORGE CRAIG STEWART.  
(Rector of St. Luke's Episcopal Church, Evanston.)

(Chicago Tribune Press Service)  
Washington, D. C., Oct. 17.—(Special)—Organized labor, according to William Green, president of the Federation of Labor, who spoke at the Episcopal convention massmeeting of the department of social service tonight, "is in a measure paralleling the work of the church."

"Human betterment," he said, "is organized labor's goal, and spiritual advancement is the objective of the church. We try to help the church by creating a healthy environment so that the seed of the gospel may not fall on stony ground, on beaten paths, or among thorns, but instead in good ground, where it will bring forth a hundred-fold. We wish to cooperate with the church in promoting religion and morality, and we ask the church to understand us and to assist us in furthering our humane undertakings."

Commission on Divorce Report.

The joint commission appointed to study the whole problem of divorce has submitted its valuable printed report, seventy-eight pages. Hasty marriages and lack of uniform divorce laws, it finds, are inadequate causes for rapidly increasing divorce.

The organization studies carefully other alleged causes, such as city conditions, lack of children, financial tension, sex incompatibility, economic changes affecting home life, and finds in most of them an adequate explanation of the increase in divorce. It finds the explanation rather in the breakdown of the Christian ideal of marriage and the "steady growth of the so-called romantic view of life which, in the minds of many men and women, would make marriage one long honeymoon. This makes pleasure the test of life rather than duty."

The great problem of the condition of women in the church is not as much in the state the Christian ideal of marriage as to know how to make this ideal effective."

Make Specific Recommendations.

The commission offers the following recommendations and resolutions which will be voted upon by both houses, probably tomorrow:

1. That our normal schools, colleges, universities, and seminaries be asked to offer more instruction on the subject of human relationships, especially on the subject of marriage.

2. That the clerics of this church be urged to give attention to marriage a conspicuous place in their programs.

3. That attention be given to the whole problem of marriage and divorce."

The report also offers the following resolution:

"Resolved, the house of bishops and

including the study of the moral and religious factors; and that the commission study and report to the next convention, first on the ecclesiastical and canon law of this church in relation to marriage, divorce, and the annulment of marriage, and, second, on the relation between civil and religious marriage, and for the purpose of making these special studies the commission have power to add to its number.

It is being planned, probably for Friday next to consider three leading subjects which command the attention of the church—the unity of Christendom, with special reference to the report on Lausanne submitted by the commission on faith and order; the program of nation-wide evangelization, and the youth movement throughout the church.

The conference carried on for work among college students under the auspices of the college commission,

Chicagoans May Be Bishops.

It is rumored that the following Chicago clergymen have been nominated for major episcopal positions: The Rev. George H. Thomas, rector of St. Paul's; the Rev. Howard R. Brinker, rector of St. Bartholomew's, and the Rev. Frederick C. Dels of Evanston, field secretary of the national council, and for fifteen years curate in China from St. Luke's, Evanston. The house of bishops, which elects missionary bishops, now meets and elects in closed session, so that this news which has leaked out cannot at this time be officially authenticated.

The bishop of Chicago, the Rt. Rev.

C. P. Anderson, D. D., was elected vice chairman of the house of bishops today and took his seat alongside of the presiding bishop.

A great joint session of both houses

deputies concurring, that the commission be continued with the understanding that it cooperate with other agencies to secure a scientific study of the whole subject of marriage and divorce.

## ATHEIST GOES TO JAIL AS PROTEST AGAINST ARKANSAS STATUTE

Little Rock, Ark., Oct. 17.—(AP)—As a protest against anti-atheist laws in Arkansas, which, he said, denied atheists full rights as citizens, Charles Smith of New York, president of the American Association for Advancement of Atheism, was in jail here tonight, serving out a fine of \$25 imposed upon him as a result of his activities against a proposed anti-evolution law to be voted on in the general election next month.

Smith, on charge of distributing printed material calculated to provoke a breach of the peace, Smith decided to submit to voluntary imprisonment as a protest, he said, against state laws which prohibit atheists from testifying in courts or holding public office.

At his trial in Municipal court this morning Smith was denied permission to testify in his own behalf by Municipal Judge Harper Harb because he declined to take the customary oath.

The fine with costs amounted to \$26.40 and Smith will serve it out at the rate of \$1 a day.

deputies concurring, that the commission be continued with the understanding that it cooperate with other agencies to secure a scientific study of the whole subject of marriage and divorce.

A great joint session of both houses

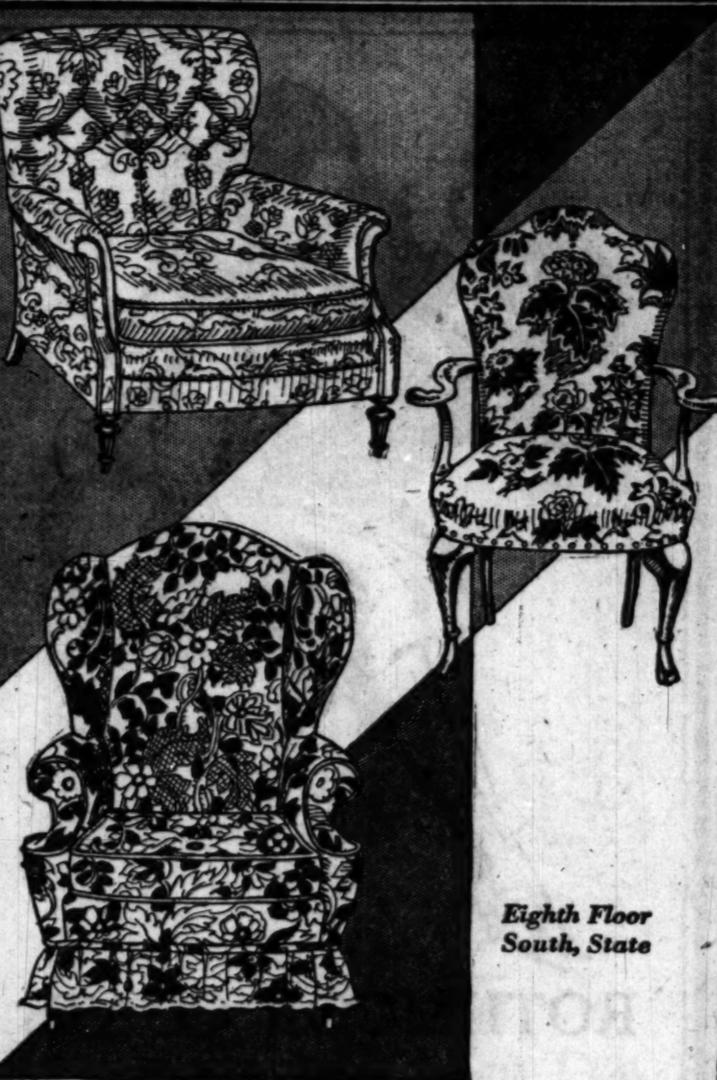

is being planned, probably for Friday next to consider three leading subjects which command the attention of the church—the unity of Christendom, with special reference to the report on Lausanne submitted by the commission on faith and order; the program of nation-wide evangelization, and the youth movement throughout the church.

The conference carried on for work among college students under the auspices of the college commission,

closed tonight with a dinner at which the writer of this column was the speaker.

A largely attended garden party on the grounds of the cathedral from 4 to 6 this afternoon occasioned the early adjournment of both houses after a day of rather formal action, disposing of relatively unimportant resolutions by reference to appropriate committees or by immediate disposition by vote. There was little oratory wasted in debate.

## MARSHALL FIELD & COMPANY

## Three Chairs That Are Exceptional Values

An additional Chair may make your Living Room just cozily comfortable. And we know of no better values than the three above.

For \$75. A beautifully made Easy Chair, with a tufted back. Designed for comfort, and decidedly reduced in price.

For \$32.50. A solid mahogany Armchair, assorted frame, velvet and tapestry covers. A remarkable value.

For \$55. A wing chair that is luxuriously soft and very graceful. Six inch ruffled skirt, our assorted Sherbrooke coverings.

## MELLON SCOFFS AT AL'S CHARGES OF G. O. P. WASTE

Tells Inaccuracies in Sedalia Speech.

BY ARTHUR CRAWFORD.  
(Chicago Tribune Press Service.)  
Washington, D. C., Oct. 17.—[Special.]—Claring inaccuracies and lack of knowledge of governmental affairs were charged against Gov. Al Smith today in connection with his speech of last night assailing Coolidge economy.

Secretary of the Treasury Mellon, who was accused by the Democratic presidential nominee of presenting a false picture to the nation, challenged his statements in detail. Chairman Hubert Work of the Republican national committee also took exception to Gov. Smith's conclusions.

"Perhaps the most accurate statement in Gov. Smith's entire speech is the one in which he said that the fiscal reports of the federal finances were a Chinese puzzle to him," said Secretary Mellon. "His whole address exhibits the most superficial knowledge of what has actually taken place, and in citing figures he has been guilty of what even the most charitably minded would have to describe as 'inaccuracies.'

Says Al Doesn't Know.

Mr. Mellon said that it was not reflection on Gov. Smith's ability that he is inadequately informed as to the affairs of the federal government, the greatest business enterprise in the world.

What might reasonably be asked of him however," added Mr. Mellon, "is that he refrain from charging others with misrepresentation and bad faith until, by study and familiarity with his subject he has placed himself in a position to deal with it in terms of fact."

Gov. Smith's reference to the Chicago postoffice situation was one of a number of statements which Secretary Mellon challenged.

"In Chicago, Gov. Smith states, a site was acquired at a cost of close to \$1,000,000 that the new federal building is designed to cost \$1,250,000 and that at the last session Congress appropriated just \$300,000, not enough for the foundation," said Mr. Mellon. "From which he would have the people infer that this project is being handled in a wasteful and unbusinesslike manner.

Tells Real Facts.

"Here again the governor has been guilty of making charges without a careful ascertainment of the facts. It is true that a site had been acquired in 1928 at a cost of \$3,800,000, but that site does not include all of the land required for the new building. The government was not able to purchase the land at the price asked for what is conceded to be a reasonable sum. Compensation proceedings have had to be resorted to. Until this needed property has been acquired, it is impossible to begin construction, and the \$300,000 appropriated is all that can possibly be expended this fiscal year."

Moreover, I invite attention to the fact that the secretary of the treasury is authorized to enter into building contracts up to the full limit of \$1,250,000 as soon as the title to the land becomes vested in the United States and the plans for the building are completed."

Defends Small Economies.

Secretary Mellon criticized Gov. Smith for criticizing small economies effected by individuals holding subordinate positions in the government. "Doesn't he realize," said Mr. Mellon, "that these examples of minor savings are simply proof that the example set by the President at the top has reached down until it has permeated the whole civil service and revolutionized their attitude toward the expenditure of the public funds?"

Secretary Mellon gave his concession of what the administration understands by economy in government.

"It is not 'wasteful' but wise spending," said Mr. Mellon, "and the elimination of waste, the promotion of efficiency and business-like methods, and the careful management of the government's finances, as exemplified, for instance, by a policy of steady debt reduction with consequent relief from the heavy burden of interest charges."

Under such a definition, expenditures might actually increase from year to year and yet the nation receive an economical and business-like administration."

Work Points to Tax Cuts.

Chairman Work said that, while Gov. Smith denied that there had been a reduction in the cost of the govern-

## Smith Is Wrong on Chicago Postoffice, Deneen Asserts

Gov. Smith's attack on the Republican administration for its alleged false economy and delay in the matter of the construction of the new Chicago postoffice was challenged yesterday by Senator Charles S. Deneen, who produced figures prepared by Postmaster Arthur Lueder and United States District Attorney George E. Q. Johnson in support of his statements.

At the same time it was announced in Washington that the architectural firm of Graham, Anderson, Probst and White had been formally notified of its selection to design the postoffice structure, which it was revealed is to rise to a height of eight stories.

Waste Charge Gets Reply.

In his Sedalia, Mo., speech, Gov. Smith pointed to the Chicago postoffice matter as a "typical example" of "gross waste" under a Republican administration paraded as an economy. He said that "just \$300,000, not enough for the foundation, has been appropriated for the new \$14,250,000 postoffice, the site for which cost close to \$4,000,000." And, he added, "the government is paying in rent for postal facilities in the city of Chicago \$243,000 a year."

When Senator Deneen replied that Gov. Smith's allegation is "without foundation and that he is careless in his statement," Senator Deneen said that the government's hands are virtually tied for the present because of litigation pending over the acquisition of several parcels of land controlled by the W. J. Mayer estate in the postoffice site.

Deneen Tells Situation.

The site selected for the Chicago postoffice, Senator Deneen declared, "comprises 250,000 square feet, and is surrounded by Harrison, Canal, Polk and Clinton streets. Two hundred twenty thousand square feet of the site have been purchased from Marshall Field & Co. The government refused to pay the price asked by the Foreman Trust and Savings bank.

Expect Completion by 1933.

Treasury officials, according to information from Washington, expect to have the postoffice completed before the opening of the Chicago World's Fair in 1933.

The federal courts and the district attorney's office will be retained in the old federal building. Because of crowded conditions several of the activities now housed in the federal building will be removed and the space they occupied turned over to the federal courts.

ment under Republican administration, "he was shrewd enough to avoid all reference to any of the four tax reduction measures which have become effective in the last seven and one-half years."

He avoided reference to these measures," said Dr. Work, "because he knew that there is not an individual or business concern in the United States but is paying less money into the United States treasury now than

in 1921, due to the tax reduction program of the Republican administration. Gov. Smith also avoided all reference to the fact that since 1921 the Republican administration has paid off seven billion dollars of government bonds bearing interest."

DIES OF INJURY FROM FALL.

John Simons, 45 years old, 1850 South Dearborn street, died in the hospital yesterday of a skull fracture suffered in a fall in front of his home on Oct. 15.

## Voice with smile wins

I know and speak from experience.

"My doctor tells me that Nujol isn't a medicine. It's simply a pure natural substance. It keeps your system functioning as nature meant it to, even under sedentary or abnormal conditions. It not only prevents an excess of body poisons (we all have them) from forming, but aids in their removal."

Nujol can't possibly hurt you or upset you, for it contains absolutely no medicine or drugs. You can take it under any conditions. And its cost is very little—more than two or three ice cream sodas. Get a bottle of Nujol today. It's sold at all drugstores, in sealed packages only, never in bulk. Perfected by the famous Nujol Laboratories, 26 Broadway, New York.

"I've done it with Nujol—nothing else. It's kept me from having headaches and colds and that awful let-down feeling. Kept my nerves from getting jangled, too. If you're inclined to feel irritable, tired, nervous, Nujol will do you a lot of good.

## NORWEGIAN SHIP DOCKS IN CHICAGO FROM GERMANY

The Norwegian steamship, "Roa," docked early yesterday at the Terminal & Transportation corporation's slips at 102d and the Calumet river after a trip from Hamburg, Germany.

The "Roa" left Hamburg on Sept. 15 and came to the Chicago port by way of the St. Lawrence and the Welland canal and lakes. It is a 1,300 ton boat and its cargo from Germany was a consignment of potash. Officials of the Terminal and Transportation corporation said last night that regular freight service had been established between Europe and the port of Chicago.

Mellon Awards Contract.

The final decision awarding the contract to the Chicago architectural firm of Graham, Anderson, Probst and White had been formally notified of its selection to design the postoffice structure, which it was revealed is to rise to a height of eight stories.

The design for the postoffice," said Ernest R. Graham, member of the firm, "will be in keeping with what a government building should be in the city of the magnitude of Chicago."

It was revealed that the specifications call for the erection of an eight-story building and basement. The first six stories will be used for the postal service and the upper two rented to other government departments. It is probable that as many as thirty federal departments will have offices in the new structure.

Expect Completion by 1933.

Treasury officials, according to information from Washington, expect to have the postoffice completed before the opening of the Chicago World's Fair in 1933.

The federal courts and the district attorney's office will be retained in the old federal building. Because of crowded conditions several of the activities now housed in the federal building will be removed and the space they occupied turned over to the federal courts.

## CONNOLLY FOUND GUILTY IN SEWER GRAFT; GETS YEAR

Seely Also Is Convicted;  
Both Will Appeal.

New York, Oct. 17.—[Special.]—Maurice E. Connolly, who resigned under fire as borough president of Queens last April, and Frederick Seely, whom he had "hired" as an expert in the Queens sewer bureau, were convicted by a jury in the Superior Court in Long Island City this afternoon of conspiracy with the late John M. Phillips, sewer pipe manufacturer, to defraud the city in contracts for \$29,000,000 public sewers. The jury had been out since 12:30 o'clock on Tuesday afternoon.

Superior Court Justice Arthur S. Tompkins immediately sentenced Connolly to one year in prison and \$500 fine in maximum provided by law. His deferred sentence upon Seely until Saturday.

Attorneys for both prisoners announced they would appeal the verdict. Max D. Steuer, chief counsel for Connolly, after a brief conference with his client, hurried from the courtroom to seek a certificate of reasonable doubt from a Supreme court justice, hoping to keep Connolly out of prison pending appeal.

### Locked Up for Night.

Mr. Steuer failed to get a certificate and both Connolly and Seely were locked up over night in the Queens county jail. Mr. Steuer and Dana Wallace, chief counsel for Seely, are expected to take further action tomorrow to get their clients out of jail pending further legal steps.

At 1 o'clock this afternoon, after the jury had been locked up for over five hours with intermission for meals, Justice Tompkins, who had slept in his chambers Tuesday night, left the court room for luncheon and at the same time signed an order permitting the jury to be taken out for lunch. It was evidently his intention to keep the jury locked up until they had reached a decision.

When the court attendants went to escort the sleepless, disheveled jurors to lunch they learned that a verdict had been reached. An attendant was dispatched to Justice Tompkins, who dropped his knife and fork and returned to the bench to receive the verdict of "guilty."

### Denies Any Guilt.

Several adherents of Connolly's political machine and members of the old Phillips contractors' ring waited in court house square. They came up to Connolly before he was taken from the court room, shook his hand, offered their condolences and told him not to break down, that "everything would come out all right in the end."

Putting on a brave front, Connolly replied:

"O, I won't break. They can't break me. I haven't done anything wrong. Why, this whole thing was illegal. It's the talk of all the lawyers in town that it was against the law."

Att. George U. Harvey of Queens, who filed charges with Gov. Smith last week, said the removal of Connolly from office today asked Controller Bertie to bring a taxpayers' suit against Connolly, the estate of the late John M. Phillips, and the Queens sewer contractors to recover money illegally spent on Queens sewers. The evidence in the Connolly trial indicated that Phillips grafted upward of \$10,000,000, or upward of \$1,000,000 a year.

## RACKET IN "HOT" FURS THRIVING; VICTIMS STUNG

### "Valuable" Articles Offered Cheap.

"Let's see, didn't they call this the 'furry racket'?" asked State's Attorney Joseph Michaud, commenting yesterday apropos of the complaints of victims of the fur racket. The racket is described as follows:

"Say, pal, you look like a right guy; can you use a couple of furs cheap?" a sharp looking fellow says out of the corner of his mouth, as he sides up to a citizen. The vendor pulls back his coat and shows the end of a fur piece or two and he looks around furtively.

"They're hot!" he explains, "and they're a bargain," creating the inference the furs are stolen.

### Must Get Cash Quickly.

The prospect may hesitate, awaiting more information.

"One is worth \$210, the other \$180," the slicker whispers. "Get to get cash for them in a hurry. Yours for \$20."

If the citizen is so inclined—perhaps he has a girl or wife or mother who would be pleased—he follows the racketeer to a secluded place. He pays the \$20 and hides the furs under his coat and maybe he is a bit nervous if he passes a policeman. He doesn't know furs and he makes the presentation to the lady, only to find the pieces could be bought wholesale at \$4.95 each.

### Afraid to Tell Police.

"It's an old, old game," said Michaud, who has charge of the complaint department of the prosecutor's office.

"The crooks proceed on the theory there is a little bit of larceny in everybody. It's done frequently with jewelry. It is either claimed to be smuggled or stolen. Many folks buy stuff they are told is 'hot,' only to find themselves hot under the collar."

They seldom squeal. It's like the old green goods game. The victim is usually willing to violate the law a little bit and most times is afraid of the consequences if he tells. When we hear of those kind of confidence games it is usually through the women folks. And right now is the fur racket season."

At 1 o'clock this afternoon, after the jury had been locked up for over five hours with intermission for meals, Justice Tompkins, who had slept in his chambers Tuesday night, left the court room for luncheon and at the same time signed an order permitting the jury to be taken out for lunch. It was evidently his intention to keep the jury locked up until they had reached a decision.

When the court attendants went to escort the sleepless, disheveled jurors to lunch they learned that a verdict had been reached. An attendant was dispatched to Justice Tompkins, who dropped his knife and fork and returned to the bench to receive the verdict of "guilty."

### Denies Any Guilt.

Several adherents of Connolly's political machine and members of the old Phillips contractors' ring waited in court house square. They came up to Connolly before he was taken from the court room, shook his hand, offered their condolences and told him not to break down, that "everything would come out all right in the end."

Putting on a brave front, Connolly replied:

"O, I won't break. They can't break me. I haven't done anything wrong. Why, this whole thing was illegal. It's the talk of all the lawyers in town that it was against the law."

Att. George U. Harvey of Queens, who filed charges with Gov. Smith last week, said the removal of Connolly from office today asked Controller Bertie to bring a taxpayers' suit against Connolly, the estate of the late John M. Phillips, and the Queens sewer contractors to recover money illegally spent on Queens sewers. The evidence in the Connolly trial indicated that Phillips grafted upward of \$10,000,000, or upward of \$1,000,000 a year.

## STORM TOSSES U. S. DIRIGIBLE LIKE FOOTBALL

### Wind Crushes Steel Nose; Captain Tells Story.

The Tribune received on Tuesday night dispatches carried by the United Press telling of the experiences of the army dirigible RS-1 in a terrific southern storm. Later, another news association telegraphed from Belleville, saying the dirigible had arrived and reported it "had encountered no trouble." An Associated Press dispatch report received yesterday said:

Scott Field, Ill., Oct. 17. (UPI)—Its nose crushed and envelope ripped, the RS-1, the United States army semi-rigid dirigible limped to its hangar here at 10:40 o'clock last night after a battle with line squalls on the Mississippi river in the vicinity of Memphis, Tenn.

Returning from a 1,000 mile flight to San Antonio, Tex., where it made exhibition flights in connection with the American Legion convention, the RS-1 ran full into a "nest" of line squalls, which it fought for more than three hours. Capt. E. E. Kepner, winner of this year's Gordon Bennett balloon cup race, was in charge of the ship, with four commissioned officers and nine enlisted men.

#### Wind Crushes Nose.

"It was the most violent weather I have ever seen from the air," Capt. Kepner said. "It seems almost miraculous that our ship should have come through. At times the gas bag appeared to be crushed almost entirely, at other times it was puffed out. We were rocked and tossed by the winds as if the ship had been a football. The first heavy squall that hit us ripped the envelope near the nose and crushed the nose braces. Lieut. Fogelsanger was up in the nose at the time. It looked very serious for him. We managed to drop down. With a crushed nose our ship became difficult to steer. I thought it was all up several times.

#### Battle Storm Three Hours.

"Our four Liberty motors kept working all the time, and it was our power that finally pulled us out of the squalls after three hours' fighting. If the ship had been all right like the Graf Zeppelin or the Los Angeles, I don't think we would have come out. Several times our ship was bent like a horse shoe.

"I ordered men aloft into the bag to repair the braces. They took wire and attempted to lace on a new nose. Meanwhile, we had to keep the ship moving slowly at the same time trying to pierce the squall. We couldn't find a hole in the wind. We dived and circled and pushed, and then the squall would kick us around.

#### Fear It Would Break.

"I thought the ship would break in two. It bent again and again. A few minutes after the nose was broken, we had to fight to keep it on an even keel. The squall drove us earthward at a dizzying speed. We couldn't get the nose up for a few seconds. Some of the men prayed. It looked bad.

"We put on all the power we had, which drove us at 74 miles an hour, and risked cracking the ship in two. It brought us out of the dive when we were dangerously near to the ground. That saved us."

## KLAN PAPER BEGS FUNDS TO SPLIT THE SOLID SOUTH

### Continues Fight Despite Fears of G. O. P.

Washington, D. C., Oct. 17. (Special)—With her throat slashed and her head battered in, Mrs. Alta Gordon, 24 year old wife of Leo Gordon, alleged bank robber awaiting trial for murder in Kansas City, was found dead today in her apartment in Sunnyside, Queens. It is thought she was killed to prevent her testifying in the Kansas City trial.

The slayers, it was learned, eluded

a police guard set about the apartment for the purpose of trapping any member of the Gordon gang who might go there. The trial is not until 9 o'clock to-morrow. Det. John Morrissey called to question Mrs. Gordon, that the killing was discovered.

Morrissey was a member of the detective squad who took Gordon into custody here last June. Nine days before, while the Republican national convention was in swing in Kansas City, a gang of six gunmen raided the Home Trust company there, killed a traffic policeman, wounded four passers-by, and caused the death of another one by plane failure. They escaped with \$15,000 in cash.

### POLICEMAN HURT SAVING 2 GIRLS IN AUTO'S PATH

Policeman William Kelly, 48 years old, 820 Bowen avenue, attached to the Hyde Park station, is in the Lakeside hospital in a serious condition from injuries he suffered when he was struck by an automobile as he saved two school girls by pushing them out of the way of the car at Lake Park avenue and Forty-first street. The identity of the girls was learned as they hurried to their school nearby.

The girls walked in front of an automobile driven by George E. Treager, 7752 Clyde avenue. Policeman Kelly sprang forward, giving each of them a push which sent them out of danger. Before he could jump, he was struck by the car. Rudolph Zuckdolte, 46 years old, 1416 North Artesian avenue, died of gangrene which set in after injuries received Oct. 9 when he was knocked down at Taylor street and Blue Island avenue by an automobile driven by Frank Camborino, 2210 Mulligan street.

One other death was reported, raising the year's total of motor deaths to 820 in Cook county, according to coroner's figures.

Struck by an automobile a week ago, Michael Kantor, 54 years old, 1424 W. Augusta street, died of internal injuries. He was crossing Milwaukee avenue at Noble street.

**COST 44 MILLION  
TO RUN STATE IN  
LAST FISCAL YEAR**

Washington, D. C., Oct. 17. (Special)—Operation and maintenance of the general departments in the state of Illinois cost \$44,037,302 during the fiscal year ending June 30, 1927, the department of commerce announced today. The per capita cost was \$6.07. This compares with \$8.72 per capita in 1917.

Outlays for permanent improvements during the year were \$20,768,350.

The total revenues were \$79,483,126, 920; of this amount \$91,013,000 was or \$10.96 per capita. The increase in the amount of property and special taxes collected was 7.9 per cent from 1917 to 1926, and 6.4 per cent from 1926 to 1927.

The total funded or fixed debt outstanding June 30, 1927, was \$143,099,1926 to 1927.

## YOUTH ADMITS 35 BURGLARIES AT WAUKEGAN

(Picture on back page.)

Waukegan police early yesterday captured Orvel Weyant, 19 years old, who admitted thirty-five burglaries in the north shore town since Feb. 1. Weyant was taken into custody, police said, after he had robbed Burke's hardware store where he exchanged his gun for a new pistol. He threatened to shoot himself rather than surrender unless given assurance that he would not be mistreated by the police.

After each burglary Weyant would write letters to the police, the editors of the Waukegan newspapers and to the owners of the places looted. All of them were signed "The Devil One."

The letters to the police informed them they needed the practice in trying to solve the robbery. To the editors he would describe how the burglary was accomplished. Notes of sympathy were left for the owners. Weyant was stoked in a railroad roundhouse.

## BUILDING Chicago's Wonder Street

BEFORE the steel and concrete, even before the architect's plans for the magnificent buildings which grace Michigan Boulevard, there were men who saw in "The Avenue" one of the world's great thoroughfares of business.

So, today, Michigan Avenue ranks with other famous streets—an ever growing market place for worthwhile merchandise.

The well-groomed man and the woman of fashion look to Michigan Avenue for style. In the home of good taste—whether it be the small apartment or the more pretentious house—the influence of Michigan Avenue's Specialty Shops is seen in the furnishings and appointments. And shoppers find on "The Avenue" the appreciated Gifts for Wedding or Anniversary as well as the thousand and one things daily sought for personal needs and adornment.

Interested salesmen who know their wares render intelligent service on

## LODZ LIKE DEAD CITY AS POLISH STRIKE SPREADS

### Unions Ask Government to Intervene.

[Chicago Tribune Press Service.]  
WARSAW, Poland, Oct. 17.—The professional unions today requested the Polish government to intervene to settle the general strike at Lodz. The minister of labor, who invited delegates on both sides to negotiate a settlement, has failed to make any progress and the situation is rapidly becoming worse. The general strike was ordered to back up wage demands of textile workers.

Lodz is like a dead city without light or water. Telephone and all other communication is cut off. Several auto buses which started operation were attacked by the strikers and overturned.

There have been many riots on the principal street; crowds are terrorizing the nonstrikers.

Strikers Attack Water Works.

When the staff of water works continued the water the strikers attacked them, forcing police intervention. Several casualties were reported on both sides.

The clashes were provoked by the communist agitators, who, according to the police, are active throughout the whole city. They were well supplied with funds from Moscow.

On account of the food shortage, the municipal authorities have started rationing food.

Strikers Smoke Out Customers.

[Chicago Tribune Press Service.] VIENNA, Oct. 17.—Striking waiters at the Cafe Pruckl evolved a novel course of action last night got the proprietor almost to his knees while thousands of spectators in the street outside were treating themselves to a free laugh.

The restaurant manager hired strikebreakers. The strikers got together a couple of hundred idle members of the waiters' union, who, dressed in their Sunday best, occupied all the tables in the establishment. They entered merrily but on occasion, a soda water, costing about a cent and a half, at two hour intervals so as to be within the law. In addition, they smoked villainous cigars and cigarettes, creating a poisonous smoke barrage which even the most loyal client of the cafe could not brave.

He Pays \$200 Rather than  
Tell Why He Tossed Brick

Rather than explain why he hit Jacob Kafka, 2222 South Albany avenue, with a brick, Casimir Pulaski, 2220 South Albany avenue, yesterday paid \$200 to his neighbor. Kafka had asked for \$500 before a jury in Judge Joseph D. David's court but he quickly accepted the offer of \$200.

# Tribune Circulation is now more than 825,000 DAILY -AND GOING HIGHER!

THE whole trend of industry is toward ever larger machines and structures, able to produce in greater quantities, or accommodate greater loads. Industry does this because the larger units do the work at lower cost.

The Chicago Tribune matches the needs of modern industry. Here is a medium that does an advertising job more efficiently and more economically, just as the larger producing unit does a better manufacturing job.

The Tribune has grown side by side with modern industry and distribution. Not by chance does it today offer the manufacturer the key to a great city, a trading empire. As manufacturers have developed and improved their machinery, so has the Tribune developed and improved.

To keep pace with this progress has meant more than making a newspaper so interesting that today 825,000 copies are sold every day where 400,000 were sold ten years ago—that 1,130,000 are sold on Sundays where 630,000 were sold ten years ago. It has meant more than rolling up bulk circulation *anywhere*; it has meant intense cultivation of the Tribune territory in those places where circulation counts.

Here is a sales force for the manufacturer, a great producing machine. His goods demand as efficient and economical methods in their distribution as in their making.

The Tribune is the heavy duty unit for selling in the Chicago Territory. It does the job at far less cost, with greater immediacy of response, than any other newspaper, and of course, far more intensively than any magazine.

Facts are ready! Ask to see them! Tribune men will gladly call, whether you're ready for a schedule now or next year.

## JUDGE UPHOLDS, BUT RAPS DECOY LIQUOR EVIDENCE

### Sentences Man on Evi- dence Prisoner Obtains.

Evidence of a liquor law violation, obtained by a federal prisoner while in the custody of a deputy United States marshal and a prohibition agent, was upheld yesterday by Federal Judge Fred L. Wham, though he protested against the practice. The defendant, Louis M. Peek, 30, owner of a drug store at 201 East State street, was sentenced by the court to serve 10 days in the McHenry county jail and pay a fine of \$200 for sale and possession of liquor.

"This case presents some disagreeable features," Judge Wham prefaced his verdict. "I do not like the idea of a federal prisoner being taken out to obtain evidence of liquor violations. It is a practice that should not be permitted."

#### Accompanied by Officers.

The reason for using the colored prisoner, Steve Mackey, as a decoy, was not brought out during the trial but was related afterwards by Harold M. Keele, assistant United States district attorney, who prosecuted the case.

"Mackey," he said, "was sentenced seven months in jail on a liquor charge. As he was walking down the corridor outside the court room he pulled a bottle from his pocket, took a drink, and offered some to the deputy marshal who accompanied him. The marshal refused and Mackey said to him, 'I'll make it right with you if you will let me get my own and tell them what to do while I am in jail.' This was reported to me and Deputy Marshal C. Halligan and Agent W. J. Moogland to take Mackey and to get whatever evidence they could on the saloons owned by Mackey and any other places."

#### Deny Purchase of Liquor.

Agent Moogland and Deputy Marshal Haller both testified during the trial that they had entered the drug store with Mackey handcuffed and that Mackey had received a pint of whisky for \$7. Smith and Mackey denied it, saying that the latter had purchased only a box of cigars and several cigarettes.

Moogland testified that Smith had said to him when the agent made the raid, "I don't see how you can hook this on me as I only turned over what had been left here for Mackey and the \$7 was in payment of a debt."

The presence of the handcuffs was stressed by the defense as a reason why Smith would not make a sale if he was selling liquor.

#### Dies of Wound Suffered in Fight with Policeman

Sylvia Colombi, 35 years old, 11384 North Paulina street, died yesterday after a pistol battle with Policeman Michael Shannon of the Kensington police on Oct. 12, died at the county hospital of a bullet wound yesterday. Shannon found Colombi operating a still, the police said.

## FINE FOR CHILDREN!

Give them a good start in life, with happy smiles and healthy little bodies. Children are the most sensitive to regulate stomach and bowels. Dr. Edwards' Olive Tablets are a safe vegetable compound mixed with olive oil. They tone up and regulate the eliminative tract. Not a nasty cathartic or a habit-forming medicate, but a safe pleasant remedy for constipation, sour stomach, torpid liver, bad breath, and bowel disorders. Dr. Edwards is a well known family physician of Ohio, prescribed these tablets for many years in his own practice. Children from six years up are greatly helped by them and like to take them. Recognized by their olive color, Dr. Edwards' Olive Tablets overcome those irritable spells that many children are subject to, keep their bodies in active health, and make skin clear and eyes bright with the light of perfect health. 15c, 30c and 60c sizes.

## Minister, Rundown, Sick, Gains 7 Lbs. in 3 Weeks

New YEAST and IRON builds weight quickly. Your own druggist guarantees results—or pay nothing

"After a 7 weeks' 'revive' campaign I was so entirely run-down and had lost flesh so rapidly I became excited about my condition. My wife and members urged me to do something."

"Then I saw your advertisement of IRONIZED YEAST and decided to give it a week's trial. After 2 weeks I found my strength returning and the dull tired feeling gone."

"At the end of the 3 weeks I had gained 7 lbs. and was myself again. I can recommend IRONIZED YEAST gladly."

#### Stop Being a "Skinny" Weakling

Imagine just 3 weeks to change from a "skinny", tired, run-down person that nobody thinks much of, to a strong, well-filled-out, "peppy" man or woman that everybody admires. Many letters like the ones above are received from all over the country. "Broomatic" limbs become gracefully round and chubby. Tired feeling disappears. Blanched skin clears quickly. Only when Yeast is Ironized is it so wonderfully effective—for iron is needed to bring out the weight-building and strengthening values of Yeast. That's why IRONIZED YEAST works so marvelously. Pleasant-tasting tablets in a handy bottle. Safe for everyone. No yeast cause of constipation.

Go to any druggist today and get a full size treatment of IRONIZED YEAST. If after this generous trial you are not delighted with results, your money back instantly.

#### What Doctors All Over Say\*

"Brewers' Yeast gives A No. 1 satisfaction in gastro-intestinal disorders and as a weight builder."

"It has a distinct value in general weight building, constipation, lack of appetite, skin eruptions, general run-down condition, etc."

"Have been using Brewers' Yeast in preference to Baker's Yeast for 10 years. Condition and results were satisfactory. Anemias were improved."

"Have seen good results with Yeast (pimples). Believe Brewers' Yeast gives better results."

"The above are extracts from the hundreds of well known physicians and scientists all over the United States. For professional reasons their names cannot be given here. The reports are on file at our office, and may be seen at any time. For further information for Brewers' Yeast, the kid used in IRONIZED YEAST.

Well-Known Druggists Everywhere  
Recommend Ironized Yeast

Recommends as Fine Body-Builder

"IRONIZED YEAST gives A No. 1 satisfaction and has unusual steadily repeat sales. Therefore, I do not hesitate to recommend it to anyone in need of a body-builder." — M. F. Scheie, Ft. Wayne, Ind.

Used It Himself—Recommends to All

"Used IRONIZED YEAST. especially in anemia condition. recommend it to anyone needing a building tonic." — C. H. Smith, Baltimore, Md.

Excellent for Rundown People

"I have seen some very good results with IRONIZED YEAST, especially in anemia condition. recommend it to anyone needing a building tonic." — H. S. Arrington, Norfolk, Va.

## DEATH DECREED FOR FIRST SLAYER BY FASCIST CODE

### Tribunal Holds Killings Endangered State.

(Chicago Tribune Press Service.)

ROME, Oct. 17.—For the first time since the establishment of the Italian kingdom in 1870 a death sentence was passed today on a convicted murderer.

Michel Della Maggiora, unless the king changes the sentence to life imprisonment, will be executed by a firing squad for the murder of two Fascists in the town of Lucera last March. Under previous regimes, Maggiora would have been sentenced to life imprisonment, but the new Fascists' code introduced the death penalty for certain degrees of murder and Maggiora, who boasts that he is a communist, will be the first victim.

"Longed to Kill Fascists."

It was murder for political reasons pure and simple, he indicated.

"I hated fascism with all the bitterness of my soul," the condemned Red proudly told the special tribunal for national defense summoned to pass judgment.

"I did no malice against those I killed. I did not even know them, but they were Fascists and I longed to kill Fascists."

Maggiora originally set out to murder the Fascist mayor of the town of Buggianese. Failing to find him at the town meeting one night, he opened fire on the first person he saw wearing a black shirt.

The first victim was one named Mois, a shopkeeper. Maggiora failed him before the eyes of the man's wife. The next victim was a laborer named Bonamici, and he received the remaining bullets and fell dead.

Three Types of Murderers.

Three types of murderers receive the death penalty in this country, whose inhabitants instinctively revolted against capital punishment since the days when the quarreling dukes and princes used it, and the more sane people were considered indiscriminate.

The three types are: killing of royal families or of the prime ministers, those killing two or more persons, and those committing murders of a nature which is likely dangerously to provoke public sentiment and thereby endanger the national defense. Maggiora came under the last two types.

Under Special Tribunal.

In such case the new Fascist code provides for convoking a special tribunal for "national defense" composed entirely of magistrates.

It was this body which solemnly pronounced the death sentence in the hushed courtroom of the little town of Lucera at noon yesterday.

It was decided that Maggiora deserved the same end that he met out to unfortunate victims, because there had been two of them and because the cold blooded nature of the murder provoked dangerous public sentiment.

Though the entire press tonight approves the sentence, the people who kept capital punishment out of the criminal code from the beginning of the kingdom still feel the advent of fascism expresses regret at the action.

Many hope the king will intervene to save the life of the criminal.

**Policeman Stops Bandit  
After Attempted Robbery**

Fleeting west on North avenue after firing two shots at Irving Podolsky, who resisted an attempted holdup in his vegetable store at 447 West North avenue, last night, Joseph Boyd, 45 West Huron street, was surprised.

Patrolman Thomas Carroll of the 12th police district brought the bandit to a halt after firing six bullets. Neither Podolsky nor Boyd was wounded.

**John Goss Funeral Rites  
to Be Held on Saturday**

Funeral services for John Goss, 4026 Carroll avenue, who died on Sunday in Glendale, Cal., will be conducted on Saturday at 9 a.m. in St. Mel's church, Burdette and 10th in Mount Carmel cemetery. Mr. Goss, who was born in New York 55 years ago, had been a resident of Chicago for nearly 50 years. He was a veteran of the civil war. He is survived by four daughters, fourteen grandchildren and eleven great-grandchildren.

ANNIE? ANNIE? OF COURSE  
IN AN INSTITUTION SUCH AS  
THIS WE HAVE MANY  
ANNIES—ANNIE? OH, YES—  
I REMEMBER HER NOW—  
SHE WAS THE SWEET LITTLE  
GIRL YOUR WIFE TOOK  
ABOUT THREE YEARS AGO—

EXACTLY—HOW SHE'S LOST  
SOME WHERE IN THIS CITY—  
WEVE LOOKED EVERYWHERE  
FOR HER—I THOUGHT  
PERHAPS I MIGHT FIND  
SOME CLEW HERE THAT  
WOULD HELP TO LOCATE HER—

OF COURSE MOST OF THE  
CHILDREN WHO WERE HERE  
AT THE TIME ARE GONE NOW—  
BUT I'LL QUESTION THOSE  
WHO KNEW HER—PERHAPS  
I CAN LEARN SOMETHING  
FROM THEM—COULD YOU  
COME BACK SATURDAY?

GREAT SCOTT!!! MR.

WARBUCKS, LOOKING FOR  
ANNIE—IF HE FINDS HER  
HERE THERE'S NO TELLING  
WHAT STORIES SHELL TELL  
HIM ABOUT HER TREATMENT  
HERE—OH, DEAR—OH, DEAR!  
WHAT SHALL I DO?

### FRENCH PEASANT MURDERS THRILL PARIS READERS

### Young Man Kills 3 of His Family.

(Chicago Tribune Press Service.)

PARIS, Oct. 17.—Three of the cold

blooded type of crimes that seem peculiar to the French peasantry were aired today. The assizes department at Eure et Loire sentenced one murderer, while news of two other brutal crimes filled the front pages of the Paris papers.

Crime number one concerned a 23 year old criminal, who killed an old woman for the sum of 150 francs (about \$6), and was sentenced to spend the rest of his life at hard labor in the French penal colony.

Murders Three of Family.

His crimes were comparatively gentle when compared with that reported at Clermont Ferrand, where a murderer ended the lives of a family of three.

The three victims were attacked while asleep. The slayer, a man 23 years old, used a knife, pitchfork, revolver, poker, and pick ax to kill his own grandfather, stepmother, and half sister.

Falls to KU Husband.

An even more coldblooded murderer also from the assizes department at Eure et Loire and is an account of three persons' attempt to murder a hotel keeper named Pelleter. The three involved were Pelleter's wife, her lover, and her mother. The reason for the murder was that Pelleter prevented his wife from marrying her lover and would not give her a divorce as it would mean a division of the property.

The three victims were attacked while asleep. The slayer, a man 23 years old, used a knife, pitchfork, revolver, poker, and pick ax to kill his own grandfather, stepmother, and half sister.

## DEATH NOTICES

INVESTMENT MEN  
OPPOSE LAWS TO  
CLOAK SWINDLER

Company Only as Good as  
Its Officers, They Say.

Atlanta City, N. J., Oct. 17. [Special.]—The Investment Bankers' association went on record today as being distinctly opposed to any legislation affecting investment trusts which will provide a form or standard that unreliable managers may comply with and thereby used as a cloak to their unwholesome confidence.

The report on investment trusts, or "investment companies," which the investment bankers prefer to call that type of corporation, was submitted to the convention by Charles D. Dickey, chairman of the investment companies' committee. The report said:

"We are opposed to legislation which would make it easier for management and precludes them from legitimate and profitable fields. We are in favor of establishing either through leadership, custom, or by regulation, if necessary, the practice of furnishing to investors and prospective investors information which will enable them to judge the management and to know what to expect; and if management is to be supervised we are in favor of accomplishing this by giving to the proper state authorities such powers of investigation as may be necessary to prosecute unworthy enterprises promptly."

## As Good as Management.

The committee pointed out that an investment company is no better than its management and this management must be scrutinized from the point of view of both character and ability. The report said that "fully twenty states" are considering the regulation of investment companies.

"We feel that the principal purpose of any sound form of regulation today should be, primarily, to assist the investor in distinguishing good companies from bad ones, and secondly, to give the state authorities power to investigate and prosecute companies of a doubtful nature," the report continued.

"In other words, there are two phases of the situation which must be born in mind in any proposed regulation—one covering the issuance and sales of the securities to the public and the other covering a means for subsequently safeguarding the public's interest in such an investment."

## The Safeguards Urged.

In connection with the first phase, it would seem proper to us that the management should be required to disclose its prospects the following:

1. Complete list of officers and directors.

2. Outline of plan of capitalization.

3. Whether securities offered are

Announcing

# A Finer Tire

## ADVANCING BEYOND ALL FORMER BALLOON TIRE STANDARDS

NOW • • • A DUAL-BALLOON • • •

To go beyond the great mileage records that have made the name General famous—to do this without sacrificing any of the benefits of low-pressure operation—was an ambitious goal.

Briefly, this has been accomplished with the new General DUAL-Balloon "8."

### Greater Mileage at Regular Balloon Pressure

There are more miles in the Dual-Balloon than it was ever thought possible to build into a tire, yet it runs at regular balloon pressure. . . . Only the new Dual-Balloon principle has made this possible.

Lately, in the tire industry, efforts to feature big mileage have led away from the true purpose of the balloon idea—back toward the old standard of "high-pressure" or "moderate-pressure" in tires.

But the new Dual-Balloon completely reverses that tendency. . . . With the Dual-Balloon you do not trade "riding comfort" for the added miles.

No tire of anything like its great mileage capacity can offer its low-pressure advantage—cradle-like riding ease, luxurious comfort.

### Thousands of Added Miles of Non-Skid Safety

Its flat, powerful tread design, the wider, deeper non-skid, will carry you safely long past the point where, by all previous standards, you would expect to be running on "bald-headed" tires.

LET US TELL YOU  
HOW TO GET  
THE DUAL-  
BALLOON "8"  
ON YOUR NEW CAR

# VON PORAT DEFEATS WIGGINS ON FOUL

YOST, GRIEVED BY JESTERS, RETURNS TO MICHIGAN

HURT BECAUSE  
CAMPUS SAID HE  
DESERTED TEAM

Clears Mystery Over  
Head Coach.

FIELDING H. YOST.

Michigan's grand old man, came back to the campus tonight, disappointed and hurt because the students had treated his trip to Nashville in jest.

Yesterday the Michigan Daily, official campus publication, contained a number of salutes to Yost for "running away" before the Ohio game. And even President Little was quoted in newspapers as having remarked: "Mr. Yost's departure is an indicator."

A Detroit newspaper had reported that Mr. Yost had resigned. His trip occasioned more furor here than the defeat of Michigan by either Ohio Wesleyan or Indiana.

Yost Returns to One.

Tonight Mr. Yost slipped back to the campus. He admitted that he had shown his trip when news of the commotion it had aroused reached him in the south. And shortly after his return he made the following statement:

"I feel that there is not much more I can say than I have been here for a period of 30 years, 21 of them as coach."

"During these 21 years I have always considered ten weeks of football season a happy vacation from very active business. [He refers to his connections in the south.] Since 1921 I have been director of intercollegiate athletics here and as such have been vitally interested in the development of a plant and a program of athletics for all into a reality."

Has Coached Wonderful.

"Since '21 I have given all my possible time to coaching purely voluntarily and not as head coach. However, my work in the athletic director has grown so much I cannot find enough time to be head coach and being coach is no part time job."

"I never expect to leave Michigan and my interest in the coaching problem and personnel will always endure."

"I have been here 30 years and God willing I'll be here 30 years more."

Mr. Yost amplified his formal statement by explaining that when he was called to Nashville he did not inform his secretary when he planned to return.

"I meant all the time to get back before the Ohio game," he said. "Before I left I talked with Coach Wiesman and gave him all the help I could."

Wiesman Is Head Coach.

Mr. Yost seemed deeply disappointed that the students should jump to the conclusion that his trip to Nashville was made to get away from the unhappy consequence of another Michigan defeat.

His statement tonight was taken to answer all doubt as to Wiesman's authority. "Who is head coach?" has been an unanswered question for the last year. Mr. Yost's frank statement tonight dissipates the mystery. Mr. Wiesman is the coaching chief. Yost is director of intercollegiate athletics.

Fleig Beats Worth, 253-250, in State Title Cue Play

Al Fleig defeated J. Worth, 253 to 226, in the second session of their three 250 point block play for the state amateur 18.2 ball line billiard championship last night at the Kieckhefer Recreation rooms. The total score is Worth, 500; Fleig, 458.

Chicago Stages Own Service Tilt on Thanksgiving

Despite the fact the Navy and Army elevens will not meet in their annual game Chicago will have its own service game this season. And Chicago's gridiron battles will be the ones to expect to see in the conflict between two branches of the service.

The Great Lakes Naval Training station and Fort Sheridan teams are pitted for their annual encounter on Soldiers' field Thanksgiving day. The game will start at 1 o'clock.

Both teams now are playing a regular schedule and both are preparing for the Thanksgiving day climax. The middies and soldiers will parade in accompaniment to the game, their officers of the service will attend. The game will be a replica on a smaller scale of the great spectacles on the same gridiron two years ago when West Point and Annapolis battled to a 21 to 21 deadlock.

In the WAKE of the NEWS

DIRECTOR YOST.  
MORIARTY QUILTS AS MANAGER OF DETROIT TIGERS

Harris May Be New Pilot; Navin Silent.

DETROIT, Mich., Oct. 17.—(AP)—George Moriarty, manager of the Detroit Baseball club of the American league, resigned tonight at the expiration of his two year contract with the team.

Moriarty's letter of resignation follows:

"I hereby tender my resignation as manager of the Detroit club. In severing my connection with the club, my sincere wish to convey my thanks to the fans and the press of Detroit for their support. I also wish to say that I hold Frank Navin in the highest esteem."

"Unfavorable circumstances played a part in the showing of the team this season. However, my contact with the game from the sand lots up has taught me to accept the reverses of baseball with the same spirit that accomplices success. That is exactly what I feel about it."

"Detroit is a great baseball city and its fans know the game thoroughly. Good luck to them."

Navin Accepts Resignation.

The resignation was contained in a letter to Frank Navin, president of the club, sent by Moriarty from his home in Woodstock, Conn., yesterday, stating that the resignation had been accepted. Mr. Navin refused to comment. He declined to state if he had signed a new manager or had one under consideration.

Although nothing official was given out, it was more or less an open secret that Moriarty would sever his connection with the team at the conclusion of the last season. In the two seasons that he piloted the club the Tigers finished in fourth and sixth places respectively.

While the caliber of the team's playing roster was blamed in some circles for the poor showing, the view was not held by the owners that the players were to blame. The players were supposed to answer to the coach. Woe for the chap who was not up on his signals. That confidence in our neutrality created a favorable impression and regard not lessened the respect of our culture."

Stanley Harris, former manager of the Washington Americans, visited Detroit last week, ostensibly for a conference with Navin, but it was learned that he had no intention of piloting the club next year. Queried tonight, President Navin said he had no reason to doubt that Northwestern's eleven should recover from the Ohio defeat. As members of the famous "Point a minute" eleven fled into the dining room, Yost snapped at them a signal—a signal, mind you, in the presence of an outsider—and the player was supposed to answer with the play. Woe for the chap who was not up on his signals. That confidence in our neutrality created a favorable impression and regard not lessened the respect of our culture."

Donie Bush Mentioned.

Stanley Harris, former manager of the Washington Americans, visited Detroit last week, ostensibly for a conference with Navin, but it was learned that he had no intention of piloting the club next year. Queried tonight, President Navin said he had no reason to doubt that Northwestern's eleven should recover from the Ohio defeat. As members of the famous "Point a minute" eleven fled into the dining room, Yost snapped at them a signal—a signal, mind you, in the presence of an outsider—and the player was supposed to answer with the play. Woe for the chap who was not up on his signals. That confidence in our neutrality created a favorable impression and regard not lessened the respect of our culture."

On a Wet Track.

Harve: Since some turf writers referred to the "ducks" at Heart lake, Hawthorne race track, I find that any one of them would make a most excellent "goose" dinner. I feel sorry for the sparrow if those birds ever take up quail hunting.

C. F. W. J. C.

The Spirit of St. Louis.

H. T. W.: Here's one that came up from St. Louis following the world's series. When Babe Ruth lofted the third of his three home runs in that final game, a fan picked up "There goes the spirit of St. Louis."

Tom Young Banowar.

On a Wet Track.

Harve: Since some turf writers referred to the "ducks" at Heart lake, Hawthorne race track, I find that any one of them would make a most excellent "goose" dinner. I feel sorry for the sparrow if those birds ever take up quail hunting.

C. F. W. J. C.

STEWARDS QUERY FOUR JOCKEYS ON BETTING RUMORS

New York, Oct. 17.—(Special)—Four of the best known jockeys riding on eastern tracks were called before the stewards of the Jockey club at a special meeting held at 250 Park Avenue this evening and questioned regarding their rumored betting on horses. The jockeys present were Laverne Fator, Frank Colletti, Frank Cartone, and Tony Pascucci.

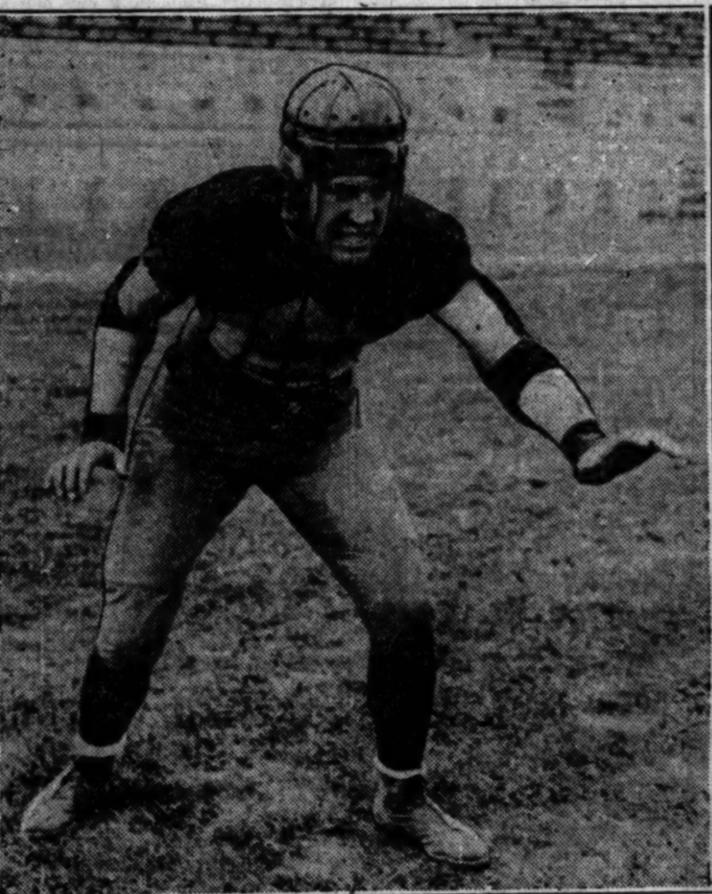

While no statement was issued by the Jockey club, it was learned that the jockeys received a warning that their actions were under scrutiny from persons who might misinterpret them or remarks not necessarily harmful. It is believed that none of the boys will be set down or suspended.

H. P. W.

Do You Remember Way Back When?

William Jennings Bryan was running for President, and we were buying Biscuits reading: "I'll Carry Silver If It Breaks My Back" T. W. D. N.

When Wildcats Fight Wildcats

Carey Spicer, half back, one of the best of Kentucky's Wildcats, who invade Evanston Saturday to meet Northwestern's Wildcats. What will happen when the same breed of animals mix will be determined in Dyche stadium.

"Hold That Ball," Hanley, Implores Purple Gridmen

BY WALTER ECKERSALL.

Northwestern, although defeated by Ohio State last Saturday, 10 to 0, is expected to recover from this setback and play much better football on Saturday in its intersectional struggle with Kentucky at Evanston.

Fumbles paved the way for Ohio's scores and only intensive practice overcomes this fault. There is no reason to doubt that Northwestern's eleven should recover from the Ohio defeat.

While the caliber of the team's playing roster was blamed in some circles for the poor showing, the view was not held by the owners that the players were to blame. The players were supposed to answer with the play. Woe for the chap who was not up on his signals. That confidence in our neutrality created a favorable impression and regard not lessened the respect of our culture."

Kentucky Is Veteran Team.

Stanley Harris, however, cannot afford to take any chances with the southern eleven. Kentucky won from

Washington and Lee last Saturday, 6 to 0. The Wildcat eleven threatened on several occasions but was unable to cash in when a card or two was needed for first down. The southern team should be fortified with scrapping plays on the week end and unless the Purple keeps its opponent at a safe distance Northwestern may have a harder task to win than is generally expected.

Three members of Kentucky's veteran team are married. The married men are Lombaro Squires, end; Bill Brown, a tackle; and Tom Walters, guard. The warriors were looked upon as among the best for their respective positions in southern football last year.

Sandy Nowack, one of the ends, is a brother of Butch Nowack, captain of this year's Illinois eleven, while Ed Covington, one of the backs, is a brother of Herb Covington who starred for Center college several years ago. Capt. Claire Dean is a veteran forward who will be seen in one of the inside positions.

Kentucky Wants That Game.

Kentucky, encouraged by its victory over Washington and Lee, will journey to Evanston prepared to turn loose every formation it has been taught. A victory for the southerners will make their season a success and Northwestern must be prepared to meet any kind of attack.

Northwestern played sound football against Ohio State last Saturday, but the team showed no desire to advance.

In a football coach's mind, the best way to hold the ball and coach Hanley is to drill his men in this angle of the game this week. There is power and deception to the game, and this will be more evident against Kentucky than Ohio.

Touchdown Tom-Tom

MINNEAPOLIS, Minn., Oct. 17.—(AP)—An old Indian was drawn one that sounded like the tocsin for the last Indian uprising in Minnesota, will be brought to Minneapolis to "help the Gophers scalp Chicago" next Saturday, and in the course of time will take its place beside the little brown jay in the football traditions of the University of Minnesota. Its new role is to be that of a "Touchdown tom-tom."

The rain on the Midway last night failed to dampen the spirits of the University of Chicago football team.

They had reached the saturation point before this climactic precipitation began.

Trainer Benson has worked wonders with the squad of cripples, though, and some of them are rounding into a semblance of proper condition and may see service against the Gophers.

Anton Rayson was back in a suit last night, and, though he took but a light workout, he may be used at Minneapolis. Van Libby and Mendenhall were scrimmaging, so are evidently recovered from their bumps incurred in the Iowa fracas.

An hour yesterday morning proved that Cassie's foot was not broken, though he will not play this week, he should be back for the Purdue game a week hence.

Have Won Five Games.

Mendenhall, Libby, Van Nise, and Burgess were the first string back field combinations and completed several passes for good gains, as well as picking up considerable yardage on running plays.

Thirty-three Maroons are leaving at 6:30 tonight for the last of the Gopher games, the gill with the University of Minnesota.

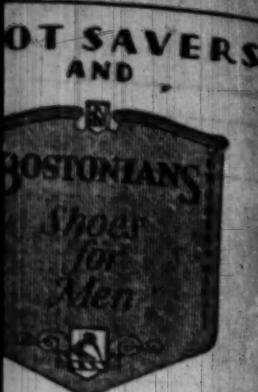

An all-out effort was made to get the Gophers to play the last game.

Each club has a conference.

The club is the club of the club.

Touchdown Tom-Tom.

## ILLINOIS TO USE VETERAN ELEVEN IN INDIANA GAME

Fresh Pierce Varsity Line with Hoosier Plays.

### Import Chicago Cops

CHAMPAIGN, Ill., Oct. 17.—[Special.]—A force of 85 traffic officers will direct traffic here during the homecoming football game between Northwestern and Illinois Oct. 27. A force of 26 traffic policemen from Chicago will be brought here, in addition to 34 state highway traffic officers, and 25 local officers to handle the traffic.

Champaign, Ill., Oct. 17.—[Special.]—It looks as if Coach Zuppke will place his entire reliance on his veterans to repulse Indiana when Coach Page brings his inspired Hoosiers here.

From the maneuvers on the practice field few new faces will be seen in the lineup. The best guess is like this: Dilling and Jolley, ends; Nowack and Gordon, tackles; Crane and Wietz, guards; Roush, center; Steussey and Fields, quarter backs; Mills and Timm, half backs; and Hause, full back.

All of these men except Steussey and Steussey won letters last year, but not all could be considered first string material.

This leaves Bill McClure and Lloyd Burdick, old letter men, as line reserves and Frank Walker as a back field relief.

### MORE TEAMWORK NEEDED

BLOOMINGTON, Ind., Oct. 17.—[Special.]—Coaches Page and Middleworth are putting the final touches on the Indiana university football squad in preparation for the double headed with Illinois A and B Saturday. Page and the team will journey to Champaign, while Middleworth's B team will entertain Coach Zuppke's re-

turnees here.

Page has been working all week to correct two outstanding faults which occurred in the Michigan game. He believes there should be more teamwork in the center combination and has been using several guards in an attempt to effect this, among them being defensive Capt. Matthew, Eddie, Ringwall, R. Bennett, Swihart, and Homack. Page also believes there is plenty of room for improvement in blocking.

### DE PAUL ELEVEN LOSES BYERS FOR DES MOINES GAME

Rah and a muddle field did not deter Coach Eddie Anderson's De Paul university football squad yesterday afternoon, the Blue Demons putting in another hard afternoon's work in preparation for their game here Saturday with Des Moines university. The freshman squad, using Des Moines plays, supplied the opposition, making some gains against the varsity.

With Sheets Byers unable to play for two weeks, due to a broken finger sustained in the Tulsa game, Coach Anderson has been grooming Maurice Jones.

### WIFE DIVORCES CROSS, FORMER RING LUMINARY

Los Angeles, Cal., Oct. 17.—(AP)—Leah Cross, formerly a contender for the lightweight boxing title, and Harry K. Lee, a boxing referee, both were divorced yesterday.

Their wives appeared in the same court and corroborated each other's testimony of desertion on July 10, 1927. Mrs. Cross said she had been married 17 years. Mrs. Lee said her married life was 21 years.

### QUINCY PLAYER HURT.

Quincy, Ill., Oct. 17.—[Special.]—Joe Afric, member of the Quincy High football team, suffered a broken ankle in scrimage practice and will be out for the rest of the season.

WEST SIDE "Y" WINS.

The West Side "Y. M. C. A."s" volleyball team will be represented in the semi-final games of the state tournament on Saturday night by defeating the South Chicago "Y" and the Western Electric team two games each.

THE VARSITY \$10 Tan, Black and Patent

### Army Troops Entrain Today for Battle Against Harvard

West Point, N. Y., Oct. 17.—[Special.]—Except for a brief signal drill, which it was stated today may or may not be held prior to the departure of the Army football team for Boston, the West Pointers have concluded preparations for the Harvard game. Murrill, Timmerlake, Cagle, and Hutchinson were in the kicking game and this morning alternated the ball. Naval and Bowman alternated at quarter. Draper, Allen, O'Keefe, and Piper were other backs in action. Carlmak, Kenny, Messinger, and Malloy were among the ends used.

### HARVARD IN TRIM.

Cambridge, Mass., Oct. 17.—[Special.]—The greater part of Harvard's practice session was devoted to defensive work against plays the Cambridge scouts have seen. The West Pointers use. Coach Horween feels that his team on Saturday will make a hard fight, but wishes he had a few more experienced men. In the first team lineup today, Pickard and O'Conor were switched back to the ends they have been playing.

### Yale Holds Snipe.

New Haven, Conn., Oct. 17.—[Special.]—Half an hour's scrapping today marked the resumption of actual football in the daily practice of the Yale squad in exactly two weeks. None was ordered last week because of wholesale colds and minor injuries. Coach Mal Stevens has delayed scrapping drill until today because of the heat and a wish to perfect the team in forward passing and every department of the kicking game in practice rather than in actual playing.

### No Navy Shakeup.

Annapolis, Md., Oct. 17.—[Special.]—Coach Bill Ingram showed his confidence in the team which lost to Notre Dame Saturday by stating today that he would make only slight changes, if any, in the team as it will start against Duke here Saturday.

### Princeton Entertains.

Princeton, N. J., Oct. 17.—[Special.]—Princeton's football team held open house this afternoon. Bill Rogers according to an announcement made today by a publicity agent connected with Harry Preston, the British boxing promoter.

### Fighter Submits to Blood Transfusion; Wins Bout

Syracuse, N. Y., Oct. 17.—[Special.]—The Syracuse university football

team was not all the sprigs along the upper Illinois river were hovering over dead and dying. There are still many of the main guard was trying to rush our shooting place. The sky was filled with birds. And there we were, squatting in the high grass completely out of the party and no way to get into the blind to join Davis in a broadside. The best bunch of birds that we had seen all morning and we were playing hide and go seek! Davis took his toll from the flock and from our grassy seat we saw the pintalls drop as his pump gun worked.

NIGHTMARE  
By GERALD MYGATT

SYNOPSIS.

Patricia Shan is being entertained in one of New York's night clubs by Fanning Edgar. She is annoyed by the insulting stare of a hawk-nosed man on the opposite side of the room. At the table with the Hawk are a blonde, coquettish woman and a slight young man who appears to be drunk. The head waiter calls young Edgar away and tries to engage her in conversation. He is interrupted by a good looking young chap, who orders him back to his place. The newcomer introduces himself as Jimmie Kirklin. Patricia tells Kirklin that she thinks the hawk-nosed man had asked the head waiter to get rid of her escort. A fight ensues and Fanning Edgar walks in on it. He pays the head waiter to restore order, and Patricia introduces Kirklin to him and then asks Fanning to take her home. A few minutes later, as Kirklin arrives in place with his companion, he is followed by a man on the street who appears to be drunk.

The hawk-nosed person, known as Bart Stompan, after taking the blonde woman home, gathers from his coat pocket, and there, lies over a number of old newspaper clippings dealing with the disappearance of the fourteen year old daughter of Col. La Verry, who offers a million dollars reward for the safe return of the girl. Stompan glances over the fact that the pictures of Sylvia La Verry resemble the girl he saw in the cabaret with Fanning Edgar, except for a red bird motif which is in the pictures. Stompan then asks the Hawk to give him a ride. Patricia and Jimmie walk home together, and then Patricia takes the evening train to her home in Far Harbor, Long Island, after Jimmie promises to come out to Far Harbor on Monday. Fanning goes to meet Jimmie at the station, and the two men have a brief conversation, while the Hawk, who has been leaving New York had seen the hawk-nosed man talking to the blonde woman at the railroad station. When the woman took the same train as Jimmie and got off at Far Harbor, the Hawk followed her. Jimmie, however, had been following the blonde woman, and the pallid little man who had followed him from the cabaret on Friday night, they go to the Spearhead hotel, and Jimmie manages to get into the next room and overhears them plotting about something that he thinks concerns Patricia.

INSTALLMENT XXVIII.  
JIMMIE ARRIVES.

The pallid little man walked to the wall and pressed the bell. Then he sat down, drumming upon his knees. Presently, after a long wait, he got up and punched the bell again, three rings and then another three, and still another three.

"That ought to fetch him," he said, confidently.

"But it did not. "Guess I better go down," he said at last. "Maybe the bell doesn't ring. Some service, I'll tell the cockeyed world!"

Five minutes later he was back in the doorway again, a large chunk of ice in his hand. "Found this in the kitchen, Queenie. Clerk's fed up with ice I guess. Nobody down there, anyway. Place as empty as Tut's tomb!" "Some dump," said Queenie, acidly. "What are you going to bust that up with?"

"Don't make my lip crack," the little man answered. He laid the chunk of ice upon the floor, reached into his hip pocket, and pulled out a limp and dangling black object, the shape of a thin and very much elongated pear. "Nice piece of leather," he commented, rubbing his fingers over the thing with what seemed to be a sort of veneration. Then he knelt before the piece of ice. He raised the leather object slowly, brought it down with a snap. The chunk of ice sagged into fragments.

"Is this Miss Shane's house?" he asked.

"Nice baby," said the little man, returning the blackjack to his pocket. "Here, Queenie, help me pick up the pieces."

They drank again, though in silence. The woman, quite obviously, was bored or else exceedingly tired, for she lay back against the pillow, her glass tilting in her hand, and let her eyelids droop. The man seemed to be poring.

"Guess I'll go down and friend up with that clerk," he said at length. "Might as well fix him right. You better rest awhile, Queenie. Plenty to do tonight."

"All right," she mumbled. "Knock before you come in, will you? I want to change my dress."

"Sure thing," said the little man and walked out.

Without either interest or hurry he sauntered the length of the brown paper hallway and tramped down the stairs into the lobby. It was still deserted.

"That's funny," he thought, while his forehead creased itself meditatively. "Hm-m-m! Maybe that clerk's asleep somewhere."

He thumped upon the desk, listened attentively, and shook his head. Then he strolled around behind the long, low counter and peered into the recesses. "I'm not up there," he said, looking about him. "I'm not up there."

"I'm not up there," he said again, his eyes focused on the floor at his feet. "Say," he drawled, and then whistled softly.

He bent down and picked up a tiny object, turning it over and over between his thumb and forefinger. He studied it ruminatively. The object was a lapel button of bronze, white rimmed.

"United States marine corps discharge," the little man mumbled. "Hm-m! Is that—so? Now, that's funny. The last time I saw one of these jiggers it was sitting on the manly chest of that quick actin' bird that juked Bart in the jaw."

"He whistled again, his eyes focused on the floor at his feet. "I thought he begin to do some thinkin' now, what's somethin' to chew over. And where's the clerk? That's somethin' else."

"This here party begins to look brighter, considerably brighter."

"Yeah, there's no use worrying Queenie—not a bit of use. Well have her sittin' here waitin' to receive either Bart or a call from Bart, and we—forzivin' the use of the royal plural—we, the undersigned, will just mosey over to Far Harbor and see if that young, healthy lookin' bloke is on the job. If he is, and if he's actin' suspicious, I'll have a pretty fair idea as to who was in that next room instead of the clerk."

He dropped the lapel button into his pocket, grinned widely, and ran up the stairs.

Captain Ebenezer Squiggs had just found the wine. He held the bottle before his eyes, turning it slowly, relishing its warm, mellow glow.

"Fair game," he soliloquized. "If Tim wouldn't hide it on me I wouldn't look for it." He smiled gently, for he knew this statement to be a falsehood. Nevertheless it comforted him. If it was Tim's habit to hide his wine in different places—this time, for instance, behind Pat's slippers in her bedroom closet—it was only serving Tim right to show him he wasn't so doggone foxy as he thought he was. "Takes a better customer than Tim Shan to outsmart me," the little man assured himself cheerfully.

He carried the bottle to the kitchen, where he pulled the cork. Then, a tumbler in his hand, he marched with satisfaction on the veranda, where he made himself comfortable in the Gloucesters' hammock.

"Let him stew," he whistled, finishing his third tumbler of wine at a gulp.

"Let him stew," said I. D. "I don't like him anyway. Legs are too damned long. Pants creased, too. Don't like creased pants. Let him stew, I says, says I."

"Knock, knock, knock!"

"Too much noise," muttered the old man, irritably. Then he sat up abruptly. For Jimmie Kirklin had stalked around the corner of the house and was peering through the copper screen of the veranda.

"O, hello!" said Jimmie, starting. Having received no reply to his knocks, he had scarcely expected to find a living man upon the porch, a man now seated upon the edge of the hammock, an old man who stared belligerently.

"Hello yourself," said Cap'n Ben Squiggs, upon whom the three glasses of wine were doing their appointed work. "Hello yourself, and see how you like it."

Jimmie whipped off his hat. "Is this Miss Shan's house?" he asked politely.

"None! Can't say as it is."

"O, pardon me, then. I'm very sorry. The driver told me—"

"Never was her house," the weazened little man volunteered, tarily.

"The trouble with young fellers like you, young feller, is that you got no respect, no respect for your elders. Elders and betters, by gravy! Miss Shan's house! Now, answer me one question—how in time could she have built this house?"

Jimmie Kirklin, who had lived in many places and among many men, measured his inquisitor with a dawning understanding.

"He spoke civilly: "I beg your pardon, but are you Mr. Shan?"

"But Miss Shan told me—"

"You a Captain Shan," the old man grunted, "but there ain't any Shan. You young fellers—"

Jimmie bowed.

"Are you Captain Shan?" he asked.

"Not on your life. Say, young feller—"

Good morning!

All gray skies, this picture, with seldom a rift of light. It is a tale of hobo life by the ex-hobo, Jim Tully, and purports to be a study in realism. A depressing thing.

It starts with the discovery of a murdered man by a young tramp who has stopped at a house to ask for bread.

Then, to Jimmie's consternation, a tramp, pointing to the silent figure slumped at the table before an untouched breakfast.

"He's dead!" whispers Jim.

The tramp, pointing to the silent figure slumped at the table before an untouched breakfast.

"Yeah, I did it," the girl replies.

and then hysterically tells why she has murdered this creature who had adopted her; and whose beastly advances she had stopped forever with a gun.

"All right," she mumbled. "Knock before you come in, will you? I want to change my dress."

"Sure thing," said the little man and walked out.

Without either interest or hurry he sauntered the length of the brown paper hallway and tramped down the stairs into the lobby. It was still deserted.

"That's funny," he thought, while his forehead creased itself meditatively.

He thumped upon the desk, listened attentively, and shook his head.

Then he strolled around behind the long, low counter and peered into the recesses.

"I'm not up there," he said, looking about him. "I'm not up there."

"I'm not up there," he said again, his eyes focused on the floor at his feet.

"Say," he drawled, and then whistled softly.

He bent down and picked up a tiny object, turning it over and over between his thumb and forefinger. He studied it ruminatively. The object was a lapel button of bronze, white rimmed.

"United States marine corps discharge," the little man mumbled.

"Hm-m-m! Is that—so? Now, that's funny. The last time I saw one of these jiggers it was sitting on the manly chest of that quick actin' bird that juked Bart in the jaw."

"He whistled again, his eyes focused on the floor at his feet. "I thought he begin to do some thinkin' now, what's somethin' to chew over. And where's the clerk? That's somethin' else."

"This here party begins to look brighter, considerably brighter."

"Yeah, there's no use worrying Queenie—not a bit of use. Well have her sittin' here waitin' to receive either Bart or a call from Bart, and we—forzivin' the use of the royal plural—we, the undersigned, will just mosey over to Far Harbor and see if that young, healthy lookin' bloke is on the job. If he is, and if he's actin' suspicious, I'll have a pretty fair idea as to who was in that next room instead of the clerk."

He dropped the lapel button into his pocket, grinned widely, and ran up the stairs.

Captain Ebenezer Squiggs had just found the wine. He held the bottle before his eyes, turning it slowly, relishing its warm, mellow glow.

"Fair game," he soliloquized. "If Tim wouldn't hide it on me I wouldn't look for it." He smiled gently, for he knew this statement to be a falsehood. Nevertheless it comforted him. Salvation Army Collects

\$91,200 Out of \$360,500

More than \$91,200 of the yearly budget of \$360,500 for the Salvation Army has been subscribed. Lester Arnow, chairman, reported yesterday at a luncheon in the Hotel Sherman.

Rush C. Butler, president of the Illinois State Bar association, addressed the group which included John E. Mitchell, DeForest Hubbard, John F. G. Myers, Herman Hettner, John F. G. Christ, and Commander John McMillan of the Salvation Army.

The spokesman for the

**Antoinette Gives Suggestions for Treating Oily Skin**

This, apparently, is better complexion week. Each day we've been taking up some condition that stands between a girl and the complexion she wants eagerly to possess. Blackheads, pimples, enlarged pores we've discussed already. Today we'll talk about oily skin.

Skins have three general classifications—normal, dry, and oily. Dr. Irvin C. Sutton, skin specialist, says that in his experience there is rarely such a thing as a perfectly normal skin. All we seem to have to much oil or not enough, he says.

"Liberally sprinkled over the body," Dr. Sutton explains, "there are little pools of oil and grapevine glands, which produce the oil that keeps our hair lubricated, our skin pliable and soft, and gives us a shield to ward off harmful dusts and vapors. There are several million of these tiny structures working day and night."

These tiny oil glands are numerous but on the palms and the soles, and are largest on the face and shoulders. That's why we often see that ugly streak of working through the upper back of a much worn dress and also why nose powdering has become a mighty occupation.

It would be worse luck, however, if one were without these tiny oil wells. There'd be a scaly, to wrestle with then, and lusterless, to wrestle with then, for a very short time. It is the most beneficial means of removing the grease. If you use cold cream—and it is better that you don't—do not let it remain on long, for the pores are already overwhelmed with the task of disposing of an excess of fats.

The oily skinned person has to rely on the frequent use of astringents or astringent toilet preparations. A couple of drops of benzoin added to the last cold rinse after you wash the face is very good.

**TRIBUNE COOK BOOK**

BY JANE EDDINGTON.

**Hot Potato Salad.**  
It is said that the favorite national dish of the Solomon Islanders is a mess of raw potatoes and rancid palm oil. But who wants to imitate those cannibalistic dwellers of an unhealthy climate through a region that could produce or originate the bongainvillea—perhaps that did not—it is worthy of some respect!

There are cold, clammy potato salads that seem to me almost as repulsive as that cannibalistic relish, but let us not allow our imaginations to run away with us at this point! At any rate, it has pleased me of late to find out how many men dislike potato salad, though it is likely to be one of the most popular dishes in the country over, alas! A man not long ago told me that it was his experience in finding this everywhere, and how he hated it! In merely telling me how it made him sick by fairly caving in at his stomach plane and bowed his body in consequence.

But a hot potato salad is something else again, and I have printed this recipe slow and again, all along with the statement that it may be vivid and pleasant with its aromas, or coarse and have off, or objectionable, flavors if carelessly prepared: For a small amount take three good sized potatoes, one-half cup minced bacon, one generous teaspoon of chopped parsley, one sliced onion, two tablespoons of vinegar. Dice the hot cooked potatoes and keep them hot, add parsley, onion slices pushed apart into rings, or, to make them smaller yet, cut the slices in half and break them up.

Prepare the dressing by trimming off smoked edges of bacon on which may be dirt to give an off flavor, cut it fine with scissors, cool till crisp in a medium hot frying pan, stirring all the time—do not burn—add vinegar, and pour over the hot potato. Without the vinegar this dressing will give a vegetable dish instead of a salad.

A German potato salad that I used to make long ago was fairly good: Boil six potatoes. When hot slice thin, cover with finely sliced onions, add one teaspoon of salt and one-half teaspoon of pepper. Mix the yolk of one egg with a tablespoon and a half of oil, one-half tablespoon of vinegar. Mix well and pour over the potatoes, then pour one-fourth cup of boiling water, or, better, hot broth over the whole mixture and stir well. Let stand for a few hours and serve, garnishing with cress, perhaps.

**For Children's Benefit.**

The annual benefit card party of the South Child Guidance center will be held this afternoon at the Shoreland hotel.

**HAROLD TEEN—THE COWS IN THE MEADOW—THE KIDS IN THE CORN**

**A Matinee Costume for the Very Young**

BY *Corinne Lowe*

NEW YORK.—[Special Correspondence.]—Even the very young have their vested interests, nowadays! Witness the plaited white silk crepe which in today's drawing does its complete duty by an adorable little sleeveless jacket of black velvet buttoned at the waist.

When the small girl from 6 to 10 is taken to the Saturday matinee or to special school exercises or to lunch with the big folks at a city hotel, here is exactly the sort of costume in which she will appear to the best advantage. We have always been partial to juvenile ensembles of this ilk, and the combination of plaid skirt, white blouse and velvet jacket has been a childhood classic. But never before in history has there been such delightful variation of the familiar theme. Soft and lovely colors, a wide use of velvet and velveteen novelties of jacket treatment—these make today's ensemble more appealing than ever before.

The above model chooses velvet as its medium and employs that combination of plain and plaided effect so dear to the heart of the juvenile designer. The skirt is crimson and black and white, while the jacket is of plain black velvet. The little white silk crepe blouse, tucked in front to form a vestee, is completed by a boyish collar, under which ties a narrow black velvet ribbon.

The young person of today must do no violence to the theory of harmonizing accessories—no, indeed, she must not! And so the beret so much in favor for the schoolgirl of all ages developed here in the jacket's black velvet. Similarly, the strapped shoes of plain black leather and stockings of white complete the picture.

**DORIS BLAKE ANSWERS**

*Use Your Own Judgment.*

Dear Miss Blake: I am in love. My mother seems to discourage me. I do not think this is fair.

*WHITEY."*

Use your own good judgment, and if you're sure you have the right girl, stick to her.

*Ignore It.*

Dear Miss Blake: Whenever the boy I love is near me, he seems bashful, but at a distance he waves. How can I win his affections?

*LOVESHOME."*

Go right up and start a friendly conversation. It will relieve the embarrassment.

*Look, mother!*

"Look, mother!" she cried. "I've

**Since Marriage Is a Vocation, Why Not Have It for a Goal?**

BY DORIS BLAKE.

Sally Jane tells of taking an inventory of herself and arriving at the conclusion that she did not give the game of love the attention it should have.

"In other words," says Sally Jane, "when love was offered me I wasn't interested. I had other ideas. But I have observed that girls that have secured nice homes are the ones who have given love and marriage first consideration since they left high school. With me it was a case of having a grand time and thinking there would always be men to play around with."

It surely hath the sound of reason. Anyway, think it over if you're still drifting along with the tide hoping something will turn up.

**D. A. R. Meets Today.**

The Chicago chapter of the Daughters of the American Revolution will hold a meeting this afternoon at the Hotel Stevens.

Her mind is going to attract serious attention sooner than one whose mind is elusive on the subject. With the definite intention of securing a husband, a home and a family for herself, a girl will approach men more in a more "female" way, if I may use the word. I mean with the lures of the female in search of her mate—a perfectly legitimate business, by the way. More than that, in fact, a highly commendable business.

"In other words," says Sally Jane, "when love was offered me I wasn't interested. I had other ideas. But I have observed that girls that have secured nice homes are the ones who have given love and marriage first consideration since they left high school. With me it was a case of having a grand time and thinking there would always be men to play around with."

It surely hath the sound of reason.

Anyway, think it over if you're still drifting along with the tide hoping something will turn up.

**EMBARRASSING MOMENTS**

The Tribune will pay \$1 for every letter published on "The Most Embarrassing Moment of My Life." Address: "Embarrassing Moments," Chicago Tribune. Write on one side of the paper. No manuscript returned.

*Stopped in Time.*

The other evening a man called at our house, and though I know him well he is much older, and he is also an artist of some note. After chatting he took from his pocket a beautiful gold and jade necklace, asking me to put it on.

He did so, but just then I remembered my father never allowed me to accept any but the most simple presents from any member of the other sex, so I said, "It is lovely, but—"

As I hesitated, he went on to say,

"It is a birthday present for my fiancée, and as you and she have the same blonde coloring, I thought you wouldn't mind letting me see if it would be becoming before presenting it to her."

Always I'll be grateful that I got no further than "It is lovely, but—"

*says*

**"I invariably prescribe yeast"**

Municipal Hospital, Copenhagen, where Dr. Ehlers is chief physician of the dermatological department

*"It is many years since my teacher and friend, Dr. L. Brocq of Paris, taught me to use fresh yeast for staphylococcal infections of the skin. Since then I have invariably prescribed yeast in all cases of boils, as well as in rebellious cases of acne. The effect of yeast upon boils is surprising and incontestable. It is often slightly laxative."*

*Dr. Ehlers*

**DR. EVARD EHLERS**

ant skin eruptions are associated with clogging of the intestinal tube.

"In boils the effect of yeast is incontestable," Dr. Ehlers says, and then advises, "the yeast treatment should be continued for several months, until the elimination of harmful bacteria is complete."

In a recent survey throughout the United States, half the doctors reporting said they prescribed yeast. Fleischmann's Yeast is a food, fresh as any vegetable from your garden. Eat three cakes daily, one cake before or between meals, plain or in water (hot or cold). To get full benefit you must eat it regularly and over a sufficient period of time. At all grocers and many leading cafeterias, lunch counters and soda fountains. Start eating it today.

Holder of degrees from the Universities of Paris, Strassburg and Copenhagen, what Dr. Ehlers says of the health properties of yeast is drawn from years of experience as a skin specialist of world-wide reputation. Many doctors now agree that unsightly, embarrassing and unpleas-
